Statement by Management on the annual report

The Executive Management has today considered and approved the annual report of Garnet Marine Capital ApS for the financial year 4 December 2019 – 31 March 2021.

The annual report is presented in accordance with International Financial Reporting Standards as adopted by the EU and Danish disclosure requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at 31 March 2021 and of the results of their operations for the financial year 4 December 2019 – 31 March 2021.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Independent auditor's report

To the shareholder of Garnet Marine Capital ApS

Opinion

We have audited the financial statements of Garnet Marine Capital ApS for the financial year 4 December 2019 – 31 March 2021, which comprise the income statement, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of accounting policies. The financial statements are prepared in accordance with the International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the entity's financial position at 31 March 2021, and of the results of their operations and cash flows for the financial year 4 December 2019 - 31 March 2021 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements, or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Independent auditor's report

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes

1. Accounting policies

Reporting class

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and disclosure requirements of the Danish Financial Statements Act governing reporting class B enterprises.

This is the Company's first financial year and comprise the period 4 December 2019 – 31 March 2021.

Basis of preparation

These financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The financial statements are presented in US Dollars and all values are rounded to the nearest thousand (USD'000), except when otherwise indicated.

The accounting policies set out below have been used consistently in respect of the financial year.

As part of the preparation of the financial statements, Management makes a number of accounting estimates which form the basis of presentation, recognition and measurement of the Company's assets and liabilities. The significant accounting estimates are evident from note 2 to the financial statements.

Standards and Interpretations not yet in force

All of the new and revised standards and interpretations which are relevant to the Company and which came into force with effect for financial years beginning 04.12.2019 have been applied when preparing the financial statements.

According to Management, new and revised standards and interpretations not effective as of 04.12.2019 will not have a significant impact on the financial statements and will not be early adopted.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event, that future economic benefits will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Notes

1. Accounting policies (continued)

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

Items included in the financial statements of the Company are measured in the currency of the primary economic environment in which the Company operates (the “functional currency”). The financial statements of the Company are presented in the currency unit US Dollars (USD), which is the Company’s functional and presentation currency.

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses.

Statement of comprehensive income

Other external expenses

These expenses comprise expenses incurred for administration and various corporate costs.

Share of profit or loss of associated companies

The proportionate share of associates profit or loss after tax and after elimination of the proportionate share of intercompany profits or losses is recognised in the income statement.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, realised and unrealised exchange gains and losses on debt and foreign currency transactions, as well as surcharges and reliefs under the Danish Tax Prepayment Scheme, etc.

Tax on profit/loss for the year

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

The Company has elected taxations in accordance with the tonnage tax scheme for those activities which are relevant.

Notes

1. Accounting policies (continued)

Balance sheet

Investments in associated companies

Associates is an entity over which the Company has significant influence, but not control. Investments in associated companies are measured according to the equity method. This means that, in the balance sheet, investments are measured at the proportionate share of the enterprises' equity value, calculated applying the entity's accounting policies, plus the carrying amount of goodwill and plus or less the proportionate share of unrealised internal profits and losses.

Associated companies with a negative equity value are measured at USD 0. If there are a legal or constructive obligation to cover the negative balance of the associate, this amount is recognised in liabilities.

Upon distribution of profit or loss, net revaluation of investments in associates is transferred to reserve for net revaluation according to the equity method under equity.

Investments in other companies

Investments in other companies are measured at fair value.

Cash

Cash comprise cash in bank deposits.

Income tax receivable or payable

Current tax receivable or payable is recognised in the balance sheet, stated as tax computed on this year's taxable income, adjusted for prepaid tax.

Cash flow statement

The cash flow statement is presented according to the indirect method and shows cash flows from operating, investing and financing activities as well as the Company's cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are calculated as the operating profit/loss adjusted for non-cash operating items and changes in working capital.

Cash flows from investing activities comprise payments related to the acquisition and sale of investments.

Cash flows relating to financing activities comprise changes in the Company's capital.

Notes

2. Significant accounting estimates, assumptions and uncertainties

Significant accounting estimates

As part of the preparation of the financial statements, Management makes a number of accounting estimates and judgements as well as assumptions as a basis for recognising and measuring the Company's assets, liabilities, income and expenses. The estimates, judgements and assumptions made are based on experience gained and other factors that are considered prudent by Management in the circumstances, but which are inherently subject to uncertainty and volatility. The assumptions may be incomplete or inaccurate, and unforeseen events or circumstances may occur for which reason the actual results may differ from the estimates and judgements made. The Company's accounting policies are described in detail in note 1 to the financial statements to which we refer.

Management considers the following accounting estimates and judgements to be significant in the preparation of the annual report.

Estimation uncertainty

Determining the carrying amount of certain assets and liabilities requires an estimate of how future events will affect the value of those assets and liabilities at the balance sheet date. Estimates that are significant to the Company's financial reporting are made, for instance, by reviewing investments in associated companies for impairment. They constitute a major portion of the Company's total assets.

Investment in associated companies are tested for impairment if events or other circumstances indicate that the carrying amount is not recoverable. Measuring associated companies requires significant estimates to be made when making different assumptions, including expected future cash flows, discount rate and terminal value growth rates. The sensitivity to changes in the assumptions applied - collectively and individually - may be significant.

Assumptions about the future and other estimation uncertainties at the balance sheet date are disclosed in the notes if they involve a material risk of changes that may lead to considerable adjustment of the carrying amounts of assets or liabilities within the next financial year.

Investments in associated companies are being assessed on a recurring basis for any indication of the recoverable amount exceeding the carrying amount. There has not been any indication thereof during the financial year.

7. Share capital

The share capital consists of 43,000 shares at DKK 1 each. The share capital has not been divided into classes.

8. Related parties

The related parties of the Company comprise the following:

Parties exercising control

Marubeni Corporation, 4-2, Ohtemachi 1-chome, Chiyoda-ku, Tokyo 100-8088, Japan holds 100% of the shares in the Company.

Notes

8. Related parties (continued)

Other related parties

Related parties also include the associated companies as disclosed in note 6 to which we refer.

During the period, there have been no transactions with related parties apart from capital injections.

9. Contingent liabilities

The Company serves as the administration company in a Danish joint taxation arrangement. According to the joint taxation provisions of the Danish Corporation Tax Act, the Entity is therefore liable for income taxes etc. for the jointly taxed entities, and for obligations, if any, relating to the withholding of tax on interest, royalties and dividend for the jointly taxed entities.

The Company has an outstanding commitment of USD 6,284 thousand for the investment in Dee4 Capital Fund I K/S.

The Company has no further contingent liabilities.

10. Financial risk management, objectives and policies

Capital management

The primary objective of the Company's capital management is to ensure that it maintains an adequate capital in order to support its business and maximise shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes of economic conditions. To maintain or adjust the capital structure, the Company can issue new shares or make dividend payments to shareholders.

Credit risk

The Company's credit risk is related to the banks where the Company's surplus liquidity is placed in bank accounts.

11. Events after the balance sheet date

Additional investments in Dee4 Fund Capital I K/S financing through capital injection in the Company has been made.

No events have occurred after the balance sheet date to this date, which would influence the evaluation of this annual report.
