Accounting policies

The annual report of Details ApS for 2021 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B.

The accounting policies applied are consistent with those of last year.

The annual report for 2021 is presented in DKK

Basis of recognition and measurement

I resultatopgørelsen indregnes indtægter i takt med, at de indtjenes. Herudover indregnes værdireguleringer af finansielle aktiver og forpligtelser. I resultatopgørelsen indregnes ligeledes alle omkostninger, herunder afskrivninger og nedskrivninger.

Aktiver indregnes i balancen, når det er sandsynligt, at fremtidige økonomiske fordele vil tilflyde selskabet og aktivets værdi kan måles pålideligt.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

The company is subject to the Danish rules on compulsory joint taxation.

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.
