# **Management's Statement**

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Airshoppen Travel Retail A/S for the financial year 1 October 2021 - 30 September 2022.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the financial position at 30 September 2022 of the Company and of the results of the Company operations for 2021/22.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

# **Independent Auditor's Report**

To the Shareholder of Airshoppen Travel Retail A/S

### **Opinion**

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 30 September 2022 and of the results of the Company's operations for the financial year 1 October 2021 - 30 September 2022 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Airshoppen Travel Retail A/S for the financial year 1 October 2021 - 30 September 2022, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("the Financial Statements").

### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

# **Independent Auditor's Report**

### Management's responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

# **Independent Auditor's Report**

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# **Management's Review**

### **Key activities**

The Company operates in the aviation industry with a focus on travel retail for air travelers. The Company sells alcoholic and non-alcoholic beverages, perfumes, cosmetics, skin care, sunglasses, toys, jewelry, confectionery, and gadgets, etc.

### **Ownership**

The Company is part of the Nordic Leisure Travel Group ("NLTG"), in which NLTG Holdco AB is the ultimate and consolidating parent company within the group (corp. No. 559222-2789). NLTG is owned by a consortium consisting of Strawberry Equities AS, Altor Fund V AB and TDR Capital Nominees Ltd.

### Development in the year

This annual report comprises the second financial year covering the period 1 October 2021 - 30 September 2022.

The COVID-19 pandemic also impacted the 2021/22 financial year, since the outbreak of the Omicron variant during the winter and spring of 2022 led to weaker than expected demand for holiday travel abroad during this period. In addition, the war in Ukraine had a short-term impact on the winter season with a slight hesitancy in bookings in conjunction with the start of the war.

However, during summer 2022, the Groups tour operators reported a strong demand for holiday travel following several years of COVID restrictions with bookings at 97-98% compared to the period prior to COVID. This was also reflected in the Company's business where we could see an increase in both turnover and gross profit compared to the previous year.

The financial year was also impacted by issues in the supply chain and the fact that suppliers prioritized domestic markets over travel retail and the current global economic environment with increased costs, high inflation and fluctuating currencies have affected the Group and the Company's margins.

As a result of above challenges, the Company suffered a loss of DKK 17 million (2020/21: Loss of DKK 29 million). The outcome is not satisfactory but corresponds with what could be expected given the circumstances surrounding Covid-19 and challenges within the supply chain.

As of 30 September 2022, the Company shows an equity of DKK 4 million.

### **Capital resources**

Refer to note 1 in the Financial Statements.

# **Management's Review**

### Expectations for the year ahead

The NLTG Group and the Company's short-term earnings capacity is naturally affected by customer demand for holiday travel, which is influenced by a variety of macro-environmental factors. Market research shows that post Covid-19, a top priority for people is to travel again and some even more than before the pandemic and despite increased costs of living, individual customers will prioritise travel compared to other consumer goods.

The Company thus expects that there will be a large underlying accumulated demand for travel in the future which was also proven during the summer of 2022 as bookings increased compared to the years before and since the current booking trend in the new year is positive and is following historical patterns.

The company has during the pandemic worked on a completely new web-shop and back office, which is scheduled for implementation with all B2B customers during spring 2023. The new webshop is expected to improve the customer experience significantly, enhance the ability to promote products and brands, and as a result improve customer conversion, retention and average sales. The financial impact on actual sales will be seen from May 2023 and going forward.

With the implementation of the new and improved web-shop and an accumulated demand for holiday travel Management is optimistic and confident that operations will improve significantly from the last financial year, and even though increased direct costs due to the macro-economic climate creates some uncertainty, the company expect to report a positive result for 2022/23.

### Material risks and uncertainties

The travel industry is generally sensitive to potential external events such as terrorist attacks, epidemics, natural disasters and inclement weather. When it comes to the safety of our guests, we take no risks; instead, we follow the travel safety messages issued by government foreign offices (for example, the Ministry of Foreign Affairs in Sweden). Thanks to our long experience and flexible organisation, we are able to react and communicate swiftly to potential changes in the business environment.

Outbreaks of illness and the pandemic caused by COVID-19 and its impact on the travel industry are examples of a material risk for companies that has materialised. However, we expect that the COVID-19 pandemic will have less of an impact on our operations in the future.

Other general uncertainties that impact the travel industry are the price of aviation fuel, potential labour conflicts and potential surplus capacity in the Nordic travel market. These uncertainties are not specific to the Group; they apply throughout the industry and impact the price level of travel in general.

### Uncertainty relating to recognition and measurement

Refer to note 2 in the Financial Statements.

# **Management's Review**

### **Unusual events**

The Company's assets, liabilities and financial position per 30 September 2022 and the result of the Company's activities for 2021/2022 have still been materially affected by the Covid-19 pandemic, with a reduction in revenue as a result.

### 1 Capital resources

Due to the Company's capital and liquidity conditions, the Company is dependent on continued liquidity from Group companies, including NLTG HoldCo AB. Equity as per 30 September 2022 is positive by DKK 4 million including a loss after tax for the financial year of DKK 17 million.

The Company has therefore received a letter of support from NLTG Holdco AB, stating that NLTG Holdco AB will support the Company to the extent necessary for the financial year 2022/23 and until 31 December 2023. The operating activities and cash flows of the NLTG Group have developed satisfactorily in the preceding financial year and at the end of the financial year, the Group net debt was SEK 636 (2020/21: MSEK 1.469) with a cash headroom above MSEK 2.401 (2020/21: MSEK 1.350).

During the financial year 2021/22, the ultimate shareholders have in accordance with financing agreements reestablished the equity of the NLTG Group. As already included in the annual report for 2020/21, in January 2022 a non-cash contribution in kind was carried out in the ultimate parent company NLTG Holdco AB in the form of the shares in NLTG HH Holdco AB including associated net assets valued at MSEK 394. Further, the shareholders have strengthened the capital resources of the NLTG Group by converting shareholder loans to equity of MSEK 465.

In addition to this, the ultimate share owners have issued several "capital commitment guarantees", which on certain reference dates guarantee that the NLTG Group fulfills its covenants in relation to a minimum equity capital and liquidity resources. The NLTG Group's owners thus demonstrate their continued faith and support for the group's future operations.

The Group's short-term earning power is of course affected by customers' demand for holiday travel, which is affected by a number of external factors. Rising interest rates, high energy prices and high inflation affect customers' financial ability, which may affect demand in the future. The booking situation for the coming year has so far followed historical patterns and the EBITDA development is slightly better than expected, but increased direct costs create some uncertainty about the results for the coming year.

We thus expect that for the financial year 2023/23 the NLTG Group will be able to deliver further progress and realize a significantly positive operating result, which is expected to be somewhat higher than the operating result for 2021/22.

It is the assessment of the Board of Directors and Executive Board that the Company, because of the above, has sufficient capital resources to continue its operations. Management therefore submits the Annual Report on the assumption of going concern.

### 2 Uncertainty relating to recognition and measurement

The preparation of the Financial Statements requires Management to make estimates and judgements. These are the basis for recognition and measurement of the Company's income, expenses, assets and liabilities.

The applied estimates are based on historical data and other factors that Management considers appropriate under the given circumstances, but which are inherently uncertain or unpredictable. Such assumptions may be incomplete or inaccurate, and unexpected events or circumstances may occur. In addition, the Company is subject to risks and uncertainties that may cause actual outcomes to deviate from these estimates.

It may be necessary to change previous estimates as a result of changes to the assumptions on which the estimates were based or due to new information or subsequent events that affects the current as well as future periods.

Because of the present market conditions within the business area of the Company, Management has, when presenting the Financial Statements, made significant estimates especially when performing: Impairment test of goodwill, Measurement of deferred tax asset and Management's review of future development where profit is expected again in the financial year 2023/24, which is based on a recurring demand for holiday and travel.

### 3 Subsequent events

No events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

NLTG HoldCo AB	Rålambsvägen 17, SE-112 59 Stockholm, Sweden	

The Group Annual Report of NLTG HoldCo AB may be obtained at the above mentioned address.

### 17 Accounting Policies

The Annual Report of Airshoppen Travel Retail A/S for 2021/22 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B as well as selected rules applying to reporting class C.

The accounting policies applied remain unchanged from last year.

The Financial Statements for 2021/22 are presented in DKK.

### **Recognition and measurement**

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

#### **Business combinations**

### **Business acquisitions**

Acquisitions are accounted for using the purchase method under which the identifiable assets and liabilities of the entity acquired are measured at fair value at the time of acquisition.

The cost of the entity acquired is the fair value of the consideration agreed, including consideration contingent on future events. Transaction costs directly attributable to the acquisition are recognised in the income statement as incurred.

Positive differences between the cost of the entity acquired and identifiable assets and liabilities are recognised as goodwill in intangible assets in the balance sheet and are amortised in the income statement on a straight-line basis over their estimated useful lives. Where the differences are negative, they are recognised immediately in the income statement.

### 17 Accounting Policies (continued)

### **Translation policies**

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

#### **Derivative financial instruments**

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are classified as "Other receivables" and "Other payables", respectively.

Changes in the fair values of derivative financial instruments are recognised in the income statement unless the derivative financial instrument is designated and qualify as hedge accounting.

### **Income Statement**

### Revenue

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Company.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

### Cost of goods sold

Cost of goods sold comprises goods consumed in the financial year measured at cost, adjusted for ordinary inventory writedowns.

### 17 Accounting Policies (continued)

### Other external expenses

Other external expenses include expenses relating to the Company's ordinary activities, including expenses for distribution, logistics, premises, marketing costs, IT-costs and corporate costs. This item also includes writedowns of receivables recognized in current assets.

### Gross profit/loss

With reference to section 32 of the Danish Financial Statements Act, gross profit/loss is calculated as a summary of revenue, other operating income, cost of goods sold and other external expenses.

# **Staff expenses**

Staff expenses comprise salaries and wages, and social security contributions, pension contributions, etc. for staff.

### Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

### Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Company, including gains and losses on the sale of intangible assets and property, plant and equipment.

### Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

#### Tax on profit/loss for the year

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

Any changes in deferred tax due to changes to tax rates are recognised in the income statement.

The Company is jointly taxed with all Danish group enterprises. The current Danish income tax is allocated among the jointly taxed entities proportionally to their taxable income (full allocation with a refund concerning tax losses)

17 Accounting Policies (continued)

### **Balance Sheet**

### **Intangible assets**

Goodwill acquired is measured at cost less accumulated amortisation. Goodwill is amortised on a straight-line basis over its useful life, which is assessed at 7 years.

Intangible assets include development of software. Development projects that are clearly defined and identifiable, where the technical feasibility of completion, availability of adequate resources to complete, existence of potential future market can be demonstrated, and where Management has the intent to manufacture, market or apply the product or process in question are recognised as intangible assets.

Other development costs are recognised as costs in the income statement as incurred. The costs of development projects comprise all directly attributable costs including wages, salaries, costs to external consultants, rent, materials and services and other costs. Intangible assets are measured at cost less accumulated amortisation and impairment losses. Amortisation is provided on a straight-line basis over the expected useful lives of the assets to their estimated residual value if any.

The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Software is amortised on a straight-line basis over its useful life, which is assessed at 3 years.

### Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Other fixtures and fittings, tools and equipment 3-5 years

The fixed assets' residual values are determined at nil.

Depreciation period and residual value are reassessed annually.

### 17 Accounting Policies (continued)

### Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

#### **Fixed asset investments**

Fixed asset investments consist of deposits.

#### **Inventories**

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

### Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

### **Prepayments**

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

### **Equity**

### Dividend

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

# Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax

### 17 Accounting Policies (continued)

entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

#### Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

### **Financial debts**

Loans are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

### **Deferred income**

Deferred income comprises payments received in respect of income in subsequent years.
