Management's Review

Key activities

The entity has entered into a Turn-key basis contract with client Koge Hospital Project Team I/S for the construction, design, engineering, supply, installation, start-up, commissioning and hand-over of all the elements, equipment and materials necessary for the realization in their final configuration of all the electricial and mechanicial installation, including the necessary assistance to mansonry works, as needed for Building B1, B2, B6 and B8.

Development in the year

The income statement of the Company for 2020 shows a loss of DKK 6.090.421, and at 31 December 2020 the balance sheet of the Company shows negative equity of DKK 6.090.421.

Management considers the result to be unsatisfactory.

Uncertainty relating to recognition and measurement

While the project starts there might be some uncertain and unforeseen situation which could lead to an utmost consideration, however based upon the years of experience in this industry we believe the risk for such aspect would be minimized till the lower possible level.

Furthermore, we refer to note no. 1 to the Financial Statements.

Unusual events

The financial position at 31 December 2020 of the Company and the results of the activities and cash flows of the Company for the financial year for 2020 have not been affected by any unusual events.

Subsequent events

No events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

1 Uncertainty relating to recognition and measurement

When preparing financial statements, Management makes a number of accounting choices, judgements and estimates forming the basis of recognition and measurement of the Company's assets and liabilities as well as income and expenses. The estimates are based on historical experience and other factors which Management considers appropriate in the circumstances, but which are inherently uncertain or unpredictable. The assumptions may be incomplete or inaccurate, and contingencies or unexpected circumstances may arise. The Company is moreover exposed to risks and uncertainties that may result in the actual outcome deviating from these estimates. Consequently, estimates may be subject to considerable uncertainty.

Contract work in progress

Work in progress includes contract work in progress of a cumulative selling price of DKK 8.395.706. Contract work in progress has been measured and recognized based on an estimate, and the measurement is therefore subject to uncertainty.

10 Accounting Policies

The Annual Report of ECS MEP Contractor I/S for 2020 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class B.

The Financial Statements for 2020 are presented in DKK.

10,1 Recognition and measurement

Revenues are recognized in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortized cost are recognized. Moreover, all expenses incurred to achieve the earnings for the year are recognized in the income statement, including depreciation, amortization, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

10,2 Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognized in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognized directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognized in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

10,3 Leases

Leases are recognised in the balance sheet at the calculated amount of the lease liability in accordance with IFRS 16. The lease liability is calculated at the present value of the lease payments calculated by applying the interest rate implicit in the lease or ECS MEP Contractor I/S's incremental borrowing rate as discount rate if the interest rate implicit in the lease is not available. Lease assets are depreciated and written down for impairment under the same policy as for ECS MEP Contractor I/S's other fixed assets.

The Company has chosen to apply the exemptions concerning short-term and low-value leases. Therefore, such lease assets are not recognised as assets and liabilities in the balance sheet. The costs are recognised in the income statement on a straight-line basis over the lease term.

The lease liability is recognised in the balance sheet under debt and is adjusted for prepaid lease payments on a current basis. At the same time, interest is added on the liability. Interest expenses are charged to the income statement on a current basis.

10 Accounting Policies

10,4 Income Statement

Revenue

Revenue from contracts with customers is recognised on the basis of transfer of control, which according to IFRS 15 takes place at the time when control of the service delivered passes to the customer.

Control is considered passed to the customer when:

- a binding sales agreement has been made;
- delivery has been made before year end;
- the sales price has been determined; and
- payment has been received or may with reasonable certainty be expected to be received.

Revenue in respect of which ECS MEP Contractor I/S delivers is recognised over time ("construction contracts"). This revenue is calculated on the basis of the selling price of work performed for the year (percentage of completion method). This method is applied when total revenues and expenses in respect of the contract and the stage of completion at the balance sheet date can be measured reliably, and it is probable that the economic benefits, including payments, will flow to ECS MEP Contractor I/S.

The stage of completion is determined on the basis of the ratio between the expenses incurred and the total expected expenses of the contract.

Revenue is recognised exclusive of VAT and net of discounts relating to sales.

Expenses for raw materials and consumables

Expenses for raw materials and consumables com-prise the raw materials and consumables consumed to achieve revenue for the year.

Other external expenses

Other external expenses com-prise expenses for subcontractors, technical assistance and expenses for premises, sales and distribution as well as office expenses, etc.

Staff expenses

Staff expenses comprise wages and salaries as well as other payroll related expenses including seconded staff.

Amortization, depreciation and impair-ment losses

Amortization, depreciation and impairment losses comprise amortization, depreciation and impairment of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses are recognized in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

The Company is not an independent tax subject, consequently no tax has been included in the annual report.

10 Accounting Policies

10,5 Balance Sheet

Property, Plant and Equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost added revaluations and reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Other fixtures and fittings, tools and equipment

3-5 years

Depreciation period and residual value are re-assessed annually.

The fixed assets' residual values are determined at nil.

Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortization and depreciation.

If so, the asset is written down to its lower recoverable amount.

Receivables

Receivables are measured in the balance sheet at the lower of amortized cost and net realizable value, which corresponds to nominal value less provisions for bad debts.

Contract assets and liabilities

Contract work in progress

Contract work in progress regarding service is measured at selling price of the work performed calculated on the basis of the stage of completion. The stage of completion is measured by the proportion that the contract expenses incurred to date bear to the estimated total contract expenses. Where it is probable that total contract expenses will exceed total revenues from a contract, the expected loss is recognized as an expense in the income statement.

Where the selling price cannot be measured reliably, the selling price is measured at the lower of expenses incurred and net realizable value.

Payments received on account are set off against the selling price. The individual contracts are classified as receivables when the net selling price is positive and as liabilities when the net selling price is negative.

Prepayments

Prepayments comprise prepaid expenses concerning subcontractors, technical assistance, rent, insurance premiums, subscriptions and interest.

Equity

Dividends

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

Financial debts

Debts are measured at amortized cost, substantially corresponding to nominal value.

Prepayments received from customers

Prepayments received from customers comprise payments received in respect of income in subsequent years.

Independent Auditor's Report

To the shareholders of ECS MEP Contractor I/S

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2020, and of the results of the Company's operations for the financial year 19 June - 31 December 2020 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of ECS MEP Contractor I/S for the financial year 19 June - 31 December 2020, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that a appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates ar related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosure and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
