Management's statement

Today, the Executive Board has approved the annual report of Arm Denmark ApS for the financial year 1 April 2022 - 31 March 2023.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 March 2023 and of the results of the Company's operations for the financial year 1 April 2022 – 31 March 2023.

The Executive Board consider the conditions for audit exemption of the 2022/23 financial statements to be met.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Practitioner's compilation report

To the Shareholders of Arm Denmark ApS

We have compiled the financial statements of Arm Denmark ApS for the financial year 1 April 2022 - 31 March

2023 based on the company's bookkeeping and on information you have provided.

These financial statements comprise a summary of significant accounting policies, income statement, balance

sheet, statement of changes in equity and notes.

We performed this compilation engagement in accordance with International Standard on Related Services 4410

(Revised), Compilation Engagements.

We have applied our expertise in accounting and financial reporting to assist Management in the preparation and

presentation of these financial statements in accordance with the Danish Financial Statements Act. We have

complied with relevant requirements under the Danish Act on Approved Auditors and Audit Firms and

International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants

(IESBA Code) including principles of integrity, objectivity, professional competence and due care.

These financial statements and the accuracy and completeness of the information used to compile them are your

responsibility.

Since a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or

completeness of the information you provided to us to compile these financial statements. Accordingly, we do

not express an audit opinion or a review conclusion on whether these financial statements are prepared in

accordance with the Danish Financial Statements Act.

Parent company Arm Ltd

Management's review

The principal activities of the company

Like previous years, the activities are regarding information technology and related services.

Development in activities and financial matters

The gross profit for the year totals DKK 8.344.116 against DKK 6.637.449 last year. Income or loss from ordinary activities after tax totals DKK 356.793 against DKK 284.284 last year. Management considers the net profit or loss for the year satisfactory.

Events subsequent to the financial year

There are no events other than the above that are expected to have a significant impact on the company's financial position.

Accounting policies

The annual report for Arm Denmark ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

Recognition and measurement in general

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

Certain fixed asset investments and liabilities are measured at amortised cost, by which method a fixed, effective interest is recognised during the useful life of the asset or the liability. Amortised cost is recognised as the original cost with deduction of any payments and additions/deductions of the accrued amortisation of the difference between cost and nominal amount. In this way capital losses and capital profits are spread over the useful life.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concern matters existing on the balance sheet date.

Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognised in the income statement under financial income and expenses.

Accounting policies

Fixed assets acquired and paid for in foreign currency are measured at the exchange rate prevailing at the date of the transaction.

Income statement

Gross profit

Gross profit comprises the revenue and external costs.

Revenue is recognised in the income statement if delivery and passing of risk to the buyer have taken place before the end of the year and if the income can be determined reliably and inflow is anticipated. Revenue is measured at the fair value of the consideration promised exclusive of VAT and taxes and less any discounts relating directly to sales.

Other operating income comprises items of a secondary nature as regards the principal activities of the enterprise.

Other external costs comprise costs for administration.

Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

Financial expenses

Financial expenses are recognised in the income statement with the amounts concerning the financial year. Financial expenses comprise interest expenses, surcharges and reimbursements under the advance tax scheme, etc.

Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

The balance sheet

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

Accrued income and deferred expenses

Accrued income and deferred expenses recognised under assets comprise incurred costs concerning the next financial year.

Accounting policies

Available funds

Available funds comprise cash at bank.

Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Liabilities other than provisions

Other liabilities concerning payables to suppliers and other payables are measured at amortised cost which usually corresponds to the nominal value.
