Statement by the General Partner on the annual report

The General Partner has today considered and approved the annual report of CI IV Swiss AIV Feeder K/S for the financial year 9 September 2020 - 31 December 2021.

The annual report is presented in accordance with International Financial Reporting Standards as adopted by the EU and disclosure requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Limited Partnership's financial position at 31 December 2021 and of the results of its operations and the cash flows for the financial year 9 September 2020 - 31 December 2021.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Copenhagen, 8 April 2022

Independent auditor's report

To the shareholder of CI IV Swiss AIV Feeder K/S

Opinion

We have audited the financial statements of CI IV Swiss AIV Feeder K/S for the financial year 09.09.2020 - 31.12.2021, which comprise the statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2021 and of the results of its operations for the financial year 09.09.2020 - 31.12.2021 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's responsibilities for the audit of the financial statements* section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board of Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

General Partner's responsibilities for the financial statements

The General Partner is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act, and for such internal control as the General Partner determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the General Partner is responsible for assessing the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless the General Partner either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the General Partner.
- Conclude on the appropriateness of the General Partner's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the management commentary

The General Partner is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

* This is the Fund's first financial year and comprise the period 9 September 2020 - 31 December 2021.

Primary activity

CI IV Swiss AIV Feeder K/S was established in September 2020. The General Partner of CI IV Swiss AIV Feeder K/S is Copenhagen Infrastructure IV GP ApS.

The Limited Partner has committed EUR 29.7m to CI IV Swiss AIV Feeder K/S for infrastructure investments in primarily North America.

Investments

End of 2021, CI IV Swiss AIV Feeder K/S has one investment, CI IV US AIV QFPF K/S, which owns underlying infrastructure investments.

Development in activities and finances

Income from investments in 2021 amounts to EUR 0.5m.

Net income for 2021 amounts to a profit of EUR 0.1m, which is in accordance with our expectations. The result reflects income from investments and administrative expenses incurred in the financial period.

Limited Partners' paid-in capital to the Fund at the end of 2021 amounted to EUR 6m, equalling 20.2% of the committed capital of EUR 29.7m. Accumulated distributions to Limited Partners amounted to EUR 0m since fund initiation and accumulated net income end of 2021 amounted to a profit of EUR 0.1m. Hereafter total Limited Partners' capital end of 2021 amounted to EUR 6.5m.

Management commentary (continued)

The CI IV held its final close on 16 April 2021 with a total commitment of EUR 7.2bn which is allocated between the investment vehicles in CI IV. The origination and investment activities are progressing in accordance with expectations. The Fund is still in the investment period.

Uncertainty relating to recognition and measurement

CI IV Swiss AIV Feeder K/S invests in infrastructure projects structured to provide stable cash flows, but where transferability and cash flows may to a certain extent still be affected by changes in market conditions.

Consequently, the fair value of the investments is based on estimates and a number of assumptions made by the General Partner on the balance sheet date.

Events after the balance sheet date

The recent development in Ukraine marks a historical event that has and further will redefine the global power structures and energy markets. The situation is unpredictable, but most likely the conflict will be prolonged and increase in severity. The situation has resulted in increased volatility for the global economy in terms of commodity prices, supply chain issues, inflation, interest rates etc. The ongoing conflict does not affect the valuations per 31 December 2021, and the Fund Manager is currently assessing how the conflict will impact the Fund.

No other events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

Outlook

The outlook for the Limited Partnership depends on the results of the investments. Expectations for the Limited Partnership are in general positive.

Profit for 2021 is expected to be within EUR 1-1.5m.

Sustainability disclosures

Environmental objective/s to which the Limited Partnership contributes:

- (1) Increased global renewable energy capacity (2) Increased global renewable energy generation (3) Reduction in greenhouse gas emissions

At end of 2021, CI IV US AIV QFPF K/S had one investment, Fighting Jays. Fighting Jays is solar PV farms.

Based on the facts, information and legislative guidance available in relation to Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment ('Regulation' or 'EU Taxonomy'), it is assessed that of the investments which are in an economic sector within the scope of the Regulation, each qualifies as environmentally sustainable under, or is aligned with, the Regulation.

Management commentary (continued)

The overall sustainability-related impact of the product, as demonstrated by relevant sustainability indicators, is:

- Renewable energy capacity: 1163 MW (once constructed and in operation)
- Renewable power generation (2021): N/A (projects not operational)
- Estimated CO₂e emissions avoided (2021): N/A (projects not operational)

The above disclosures have been made on a consolidated basis for each of the funds and entities forming part of the overall CI IV fund structure.

Notes

1. Accounting policies

Reporting class

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and disclosure requirements of the Danish Financial Statements Act governing reporting class B enterprises with certain provisions from class C.

CI IV Swiss AIV Feeder K/S is a Limited Partnership based in Denmark.

This is the Fund's first financial year and comprise the period 9 September 2020 – 31 December 2021, and hence no comparative figures have been presented.

The financial statements are presented in Euro (EUR), which is the functional currency of the Fund.

The financial statements are presented on the basis of historical cost, except for the investments, which are measured at fair value. Historical cost is based on the fair value of the consideration given in exchange for assets.

All amounts in the financial statements are presented in whole EUR thousand. Every figure is rounded off separately and, for that reason, minor differences between the stated totals and the sum of underlying figures may occur.

Judgements made by the General Partner in the application of IFRSs that have had significant effects on the financial statements are disclosed, where applicable, in the relevant notes to the financial statements.

Defining materiality

If a line item is not individually material, it is aggregated with other items and notes of a similar nature in the financial statements or in the notes. There are substantial disclosure requirements throughout IFRS. The General Partner provides specific disclosures required by IFRS unless the information is considered immaterial to the economic decision-making of the users of these financial statements or not applicable.

The most significant accounting policies are set out overleaf.

Standards and Interpretations not yet in force

All of the new and amended Standards and Interpretations which are relevant to the Fund and which came into force with effect for financial years beginning 1 January 2021 have been applied when preparing the financial statements.

The General Partner further believes that other amended Standards and Interpretations, which have not entered into force, will not have any significant impact on the financial statements, and they will not be adopted early.

Notes

1. Accounting policies (continued)

Significant accounting policies and estimates

As part of the preparation of the financial statements, the Fund Manager and the General Partner makes a number of accounting judgements which form the basis of presentation, recognition and measurement of the Fund's assets and liabilities. The most significant accounting judgements are evident from note 2 to the financial statements.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Fund, and the value of the asset can be measured reliably. Assets are derecognised in the balance sheet when it is no longer probable that future economic benefits will flow to the Fund.

Purchase and sale of financial assets and liabilities are recognised in the balance sheet at the commitment date.

Liabilities are recognised in the balance sheet when the Fund has a legal or constructive obligation as a result of an event before or on the balance sheet date, and it is probable that future economic benefits will flow out of the Fund, and the value of the liability can be measured reliably. Liabilities are derecognised in the balance sheet when it is no longer probable that economic benefits will have to be given up to settle the liability.

On initial recognition, assets and liabilities are measured at cost, however, investment assets are measured at fair value on initial recognition, typically equalling cost exclusive of directly incurred expenses (direct transaction costs). Measurement subsequent to initial recognition is effected as described below for each financial statement item. Allowance is made for events occurring from the balance sheet date to the date of presentation of the annual report, and which confirm or invalidate affairs and conditions existing at the balance sheet date.

Income is recognised in the statement of comprehensive income when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

Items included in the financial statements of the Fund are measured in the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements of the Fund are presented in the currency unit (EUR, Euro), which is the Fund's functional and presentation currency.

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses.

Notes

1. Accounting policies (continued)

Statement of comprehensive income

Revenue recognition

Dividend income is recognised when the Fund's rights to receive the payments have been established, normally being the ex-dividend date.

Operating income from investments

Operating income from investments consists of unrealised fair value adjustments, dividends, net foreign exchange gains or losses related to investments and profit or loss from the disposal of portfolio investment.

Income realised from the disposal of investments is calculated as the difference between net selling price and the fair value at the beginning of the financial year.

Administrative expenses

All expenses are recognised in the statement of comprehensive income on the accrual basis.

Administrative expenses comprise expenses incurred during the financial year not directly related to the Fund's investment activities.

Financial expenses

Financial expenses comprise various expenses, and net exchange rate adjustments on transactions in foreign currencies.

Income taxes

Under current Danish law governing the Fund, it is not independently taxable because the Fund's profit/loss for the year is included in the Limited Partner's taxable income.

Balance sheet

Investments

Financial assets and liabilities are recognised at fair value through profit or loss when the Fund becomes party to the contractual provisions of the instrument. Recognition takes place on the commitment date when the Fund purchases or sells an investment under a contract whose terms require delivery of the investment within the time frame established by the market.

On initial recognition, investments are measured at fair value.

Financial assets and liabilities are derecognised when the contractual rights to the cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Notes

1. Accounting policies (continued)

Investments consist of equity investments. On initial recognition, investment are measured at fair value, and subsequently measured at fair value with recognition of fair value adjustments through profit or loss.

The fair value is calculated equivalent to an estimated fair value that is determined based on market information, IPEV Valuation Guidelines and generally accepted valuation techniques, including benchmarking, DCF or other relevant methods, which are considered to provide the best estimate of the fair value.

For further information about the measurement of fair values, please refer to note 11.

Cash

Cash comprises cash in bank deposits.

Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

Cash flow statement

The cash flow statement of the Fund is presented using the indirect method and shows cash flows from operating, investing and financing activities as well as the Fund's cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are calculated as the operating profit/loss adjusted for non-cash operating items and working capital changes.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of investments.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and payment of distributions to the Limited Partner.

Cash comprises cash and short-term securities with an insignificant price risk less short-term bank loans.

Notes

1. Accounting policies (continued)

Financial highlights

Financial highlights are defined and calculated in accordance with “Recommendations & Ratios” issued by the Danish Society of Financial Analysts.

Ratios		Calculation formula	Ratios reflect
Liquidity ratio (%)	=	$\frac{\text{Current assets} \times 100}{\text{Current liabilities other than provisions}}$	The entity's financial strength.
Solvency ratio (%)	=	$\frac{\text{Equity} \times 100}{\text{Total assets}}$	The entity's financial strength.
Return on equity (%)	=	$\frac{\text{Profit for the year} \times 100}{\text{Average equity}}$	The entity's profitability.

2. Significant accounting estimates, assumptions and uncertainties

The Fund develops and invests in infrastructure assets (unlisted equity investments), the market price of which depends both on entity-specific affairs and market conditions, including power prices, commodity prices, exchange rates and construction risk within the different investments. As a result, income from investments, including the unrealised value adjustments and the fair value of investments are subject to estimation and uncertainty. For further information about the financial risks related to the investments, please refer to note 10.

This uncertainty may be higher during periods of high volatility in the financial markets, and economic trends affect earnings of the underlying companies as well. Furthermore, the uncertainty is affected by the construction risk within the different investments, and also the uncertainty related to the construction of the projects taking place within relevant time frames or milestones.

The methods applied in and the assumptions underlying the determination of the fair value in unlisted equity investments are described in note 11 to the financial statements.

3. Administrative expenses

The Fund has no employees.

Administrative expenses include comprises fee to administration, audit and advisors etc.

Notes

	2021 EUR'000
4. Financial expenses	
Other interest, foreign exchange loss etc.	(1)
General Partner fee	(1)
Financial expenses	(2)

	Investments EUR'000
5. Investments	
Investments in unlisted equity investments	6,027
Value adjustment	106
Fair value at 31 December 2021	6,132

Investment	Corporate form	Registered in	Equity interest %	Profit/(loss) EUR'000	Equity EUR'000
CI IV US AIV QFPF	K/S	Copenhagen	4.58	3,650	133,437

Since the Fund's main activity is in vesting in infrastructure investments, listing all investment entities related to the Fund would result in a comprehensive list consisting of multiple pages of entities. In order to maintain the integrity of the true and fair view of the annual report, the list of entities to which the Fund has an equity interest has been limited to the entities to which the Fund has a direct ownership.

Consistently with the accounting policies, the Fund regularly adjusts the value of the investments to best estimate of fair value. This means that the proportionate share of profit or loss of the investments is not recognised in profit or loss of the Fund. Instead, but rather a fair value adjustment of the investment.

The methods applied by the Fund to measure investments are evident from note 11 to the financial statements.

6. Limited Partnership capital

The Limited Partnership capital has not been divided into classes.

Notes

2021

7. Other payables

Other payables	19
----------------	----

The carrying amount of payables relates to investments, legal fees, auditor's fees, travel costs etc.
The amount recognised is equal to the fair value of the liabilities.

Other payables fall due for payment within 12 months.

2021
EUR'000

8. Working capital changes

Change in payables	19
	19

9. Financial instruments

Categories of financial instruments:

Investments	6,132
Financial assets measured at fair value through profit or loss	6,132

Other payables	19
Financial liabilities measured at amortised cost	19

All financial liabilities are due for payment within 12 months.

10. Financial risk management

The General Partner is ultimately responsible for the overall risk management within the Fund.

The Fund pursues an investment strategy approved by the Limited Partner and invests in infrastructure projects.

The Fund's risk management processes include identification, measurement, monitoring, reporting and mitigation of the identified risks to minimise the potential negative effects at fund level.

Key financial risk factors and exposure regarding the financial statements for 2021 can be categorised as follows:

Notes

10. Financial risk management (continued)

Financial risk factors

Liquidity risks

	Less than 1 year EUR'000	Between 1 and 5 years EUR'000	After 5 years EUR'000	Total EUR'000
Other payables	18	0	0	18
At 31 December 2021	18	0	0	18

The Fund manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The Funds liquidity risk is considered insignificant as liabilities are payable within one year. In addition, no indication of the Limited Partner's inability to contribute the remaining fund commitment exists as well as future income from investments is expected to settle the outstanding amount.

Credit risks

The Fund only invests in equity instruments and therefore has no credit risk.

Interest rate risk

The Fund has no external debt at the balance sheet date, and therefore no interest rate risk is related to the liabilities.

Currency risk

The Fund is denominated in EUR and investments are made in EUR. Consequently, the Limited Partner is not exposed to currency risk through the Fund. No hedging is made at fund level.

Commodity and power prices

The Fund's indirect power price exposure is mitigated via power price agreements and/or instruments in the project's capital structure. The Fund's indirect outright power price exposure are considered as low.

When the Fund has an indirect outright power price and commodity price exposure changes in such risk factors impact the fair value of the individual investment.

Notes

11. Financial instruments measured at fair value

The fair value of the investments is measured on a quarterly basis, or more frequently if significant changes occur.

The General Partner has implemented procedures and methodology to ensure that the valuation is carried out consistently over time and across investments.

Methods applied in and assumptions underlying the determination of fair values of investments

The fair value of each investment has been estimated by applying methods that best reflect the risks, and the stage of each investment, e.g. assumptions related to power prices, inflation rates, technical availability and discount rate.

In general, the fair value is determined in accordance with IPEV Valuation Guidelines and generally accepted valuation techniques, including DCF models, benchmarking or other relevant method. The valuation approach incorporates all of the factors that market participants would take into account in pricing a transaction, such as cash flows, discount rates and yield curves assumptions.

Fair value hierarchy for financial instruments measured at fair value in the balance sheet

Below, financial instruments measured at fair value are classified using the fair value hierarchy:

- Quoted prices in active markets for identical instruments (Level 1)
- Quoted prices in active markets for similar assets or liabilities or other valuation methods under which all material inputs are based on observable market data (Level 2)
- Valuation techniques under which any material inputs are not based on observable market data (Level 3)

It is the Fund's policy to incorporate the classification of financial assets (changes/transfers between levels 1 and 3) in the financial statements if their classification changes during the financial year. There have not been any transfers between the levels during the financial year and all investments are classified as Level 3 investments.

Material unobservable inputs for Level 3

Financial instruments measured at fair value in the balance sheet are based on valuation techniques that include material unobservable input. Material unobservable inputs mean in this context that the valuation is dependent on a return requirement that contains a number of components that cannot be observed on trading markets, for example project-specific risks and illiquidity prices.

Notes

11. Financial instruments measured at fair value (continued)

One of the investments have reached financial close, while the remaining are before financial close. The investments are valued at cost as best estimate for the fair value and are hence not based on valuation techniques which require unobservable inputs. As part of the valuation process, it has been assessed, however, if changes in power process, inflation rates, technical availability or discount rate should lead to impairment compared to the estimated internal rate in the business models. The assessment did not give rise to any comments.

2021	Level 1 EUR'000	Level 2 EUR'000	Level 3 EUR'000	Total EUR'000
Unlisted shares, equity investments	0	0	6,537	6,537
Financial assets measured at fair value through profit or loss	0	0	6,537	6,537

Sensitivity analysis

The fair value of the Fund's investment is affected by developments in the applied discount rate and future earnings expectations for this investment. A decline or increase in the material unobservable inputs stated above and changes in macroeconomic conditions might have a direct effect on the valuation of the investment. As a result of the investment currently being under early development, no discount rate range is disclosed and no sensitivity analyses has been made.

Please refer to note 5 for a specification of fair value investments.

12. Related parties

Notes

13. Contingent liabilities

The Fund has a remaining commitment of EUR 23.7m to CI IV US QFPF K/S.

Please refer to the description in note 10 regarding risk on provisions on the outstanding commitment.

14. Investors

The Limited Partnership has registered the following Limited Partner as holding more than 5% of the voting rights or nominal value of the contributed capital:

Limited Partner	Residence	Ownership percentage
Migros-Pensionskasse	Wiesenstrasse 15 8952 Schlieren Switzerland	100%

15. Events after the balance sheet date

The recent development in Ukraine marks a historical event that has and further will redefine the global power structures and energy markets. The situation is unpredictable, but most likely the conflict will be prolonged and increase in severity. The situation has resulted in increased volatility for the global economy in terms of commodity prices, supply chain issues, inflation, interest rates etc. The ongoing conflict does not affect the valuations per 31 December 2021, and the Fund Manager is currently assessing how the conflict will impact the Fund.

No other events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

16. Authorisation of the annual report for issue

At the meeting held on 8 April 2022 the General Partner authorised this annual report for issue on 8 April 2022.

The annual report will be submitted to the Limited Partnership's Limited Partner for adoption at the Annual General Meeting on 8 April 2022.

Notes
