Management's Statement

Today, Management has considered and approved the annual report of ADPSCOREY Holding ApS for the financial year 1 January 2022 - 31 December 2022.

The annual report is presented in accordance with the Danish Financial Statements Act.

In my opinion, the financial statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January 2022 - 31 December 2022.

In my opinion, the Management's Review includes a true and fair account of the matters addressed in the review.

The conditions for not conducting an audit of the Financial Statement have been met.

I recommend that the annual report be adopted at the annual general meeting.

Management's Review

The Company's principal activities

The Company's principal activities consist in investments in other companies and related activities.

Development in activities and the financial situation

The Company's Income Statement of the financial year 1 January 2022 - 31 December 2022 shows a result of DKK 1.216.294 and the Balance Sheet at 31 December 2022 a total of DKK 1.379.977 and an equity of DKK 1.247.874.

The Company has sold 20% of the shares in the subsidiary ADPSCOREY ApS and realised a gain amounting to 1,231,086 DKK, which has been recognised in the income statement.

Post financial year events

After the end of the financial year, no events have occurred which may change the financial position of the entity substantially.

Accounting Policies

Reporting class

The Annual Report of ADPSCOREY Holding ApS for 2022 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B.

The accounting policies applied remain unchanged from last year.

Reporting currency

The annual report is presented in DKK.

Income Statement

Gross profit/loss

The Company has decided to aggregate certain items of the income statement in accordance with the provisions of section 32 of the Danish Financial Statements Act.

Gross profit is a combination of the items of revenue, change in inventories of finished goods, work in progress and goods for resale, other operational income, cost of raw materials and consumables and other external expenses.

Other external expenses

Other external expenses include costs for distribution, sales, advertising, administration, premises, bad debts, operating leasing expenses etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions etc. The item is net of refunds from public authorities.

Income from investments in group enterprises and associates

Income from equity investments comprises dividends received from group enterprises and associates in so far as they do not exceed the accumulated earnings in the group enterprise or the associate during the ownership period.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts that concern the financial year. Financial income and expenses include interests, realised and unrealised capital gains and losses regarding transactions in foreign currencies and surcharges and allowances under the advance-payment of tax scheme.

Tax on net profit for the year

Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

Balance sheet

Equity investments in group enterprises and associates

Equity investments in group enterprises and associates are measured at cost. Dividends that exceed accumulated earnings of the group enterprise or the associate during the ownership period are treated as a reduction of the cost. If cost exceeds the net realisable value, a write-down to this lower value will be performed.

The purchase method is used to account for the acquisition of the subsidiaries; accordingly the assets and liabilities of newly acquired subsidiaries are measured at fair value at the date of acquisition. Restructuring costs recognised in the newly acquired subsidiaries are measured at fair value at the date of acquisition. Restructuring costs recognised in the acquired entity's financial statements prior to the date of acquisition and not agreed as part of the acquisition are included in the pre-acquisition balance sheet and accordingly in the determination of goodwill. Restructurings undertaken by the acquired entity are recognised in the income statement. The tax effect of the

Accounting Policies

revaluation of assets and liabilities is taken into account. Reference is made to the description of goodwill below.

Positive balances (goodwill) between cost and the fair value of assets and liabilities acquired are recognised under investments in group enterprises and amortised over their estimated economic lives determined on the basis of managements experience in the relevant lines of business. The amortisation period cannot exceed 10 years and is longest for strategically acquired enterprises with strong market positions and long-term earnings profiles. The carrying amount of goodwill is assessed for impairment on an ongoing basis and any impairment loss is recognised in the income statement if the carrying amount exceeds the expected future net income from the enterprise or activity to which the goodwill relates.

Receivables

Receivables are measured at amortised cost which usually corresponds to the nominal value. The value is reduced by write-downs for expected bad debts.

Impairment of accounts receivables past due is established on individual assessment of receivables.

Accrued income, assets

Accrued income recognised in assets comprises prepaid costs regarding subsequent financial years.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand as well as short-term securities with a term of less than three months which can be converted directly into cash at bank and in hand and involve only an insignificant risk of value changes.

Equity

Equity comprises the working capital and a number of equity items that may be statutory or stipulated in the articles of association.

Current tax liabilities

The company are jointly and severally liable as the administration company for subsidiaries corporate taxes to the tax authorities.

Liabilities

Financial liabilities are recognised initially at the proceeds received net of transaction expenses incurred. In subsequent periods, financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest method, so that the difference between the proceeds and the nominal value is recognised in the income statement over the life of the financial instrument.

Other liabilities are measured at net realisable value.

Contingent assets and liabilities

Contingent assets and liabilities are not recognised in the balance sheet but are disclosed in the notes.
