Management's statement

Today, the Board of Directors and the Executive Board have approved the annual report of WPU - Waste Plastic Upcycling A/S for the financial year 1 January - 31 December 2023.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2023, and of the results of the Group and the Company's operations as well as the consolidated cash flows for the financial year 1 January – 31 December 2023.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Independent auditor's report

To the Shareholders of WPU - Waste Plastic Upcycling A/S

Opinion

We have audited the consolidated financial statements and the parent company financial statements of WPU - Waste Plastic Upcycling A/S for the financial year 1 January to 31 December 2023, which comprise income statement, balance sheet, statement of changes in equity, notes and a summary of significant accounting policies for both the Group the Parent Company, as well as consolidated statement of cash flows. The consolidated financial statements and the parent company financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2023, and of the results of the Group and the Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2023 in accordance with the Danish Financial Statements Act.

Basis for conclusion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and the Parent Company Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Consolidated Financial Statements and the Parent Company Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent company financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and the Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent company financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

Independent auditor's report

- Evaluate the overall presentation, structure and contents of the consolidated financial statements and the parent company financial statements, including the disclosures, and whether the consolidated financial statements and the parent company financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the consolidated financial statements and the parent company financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent company financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the consolidated financial statements and the parent company financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

Group overview

Management's review

Description of key activities of the company

The objective and the tasks of the corporate group is optimization of resources, waste collection and related services.

Uncertainties connected with recognition or measurement

There are no uncertainties as to recognition or measurement.

Development in activities and financial matters

The result from ordinary activities for 2023 totals DKK -31.547.018 against DKK -21.041.855 last year. The management consider the result to be according to revised expectations considering the delayed finishing of the Fårevejle plant.

The financial year has, as in 2022, been with the main purpose of finalizing the construction of the factory in Fårevejle and the optimization of the production lines there.

The group organization has increased from 5 to 19 employees as a consequence of this. This has of course also meant that the staff costs has increased significantly from DKK 3.4m to DKK 13.8m. Together with the financial costs on DKK 9.3m, these two costs types amounts to 67% of the pre-tax loss for the year. The remaining part of the loss is mainly due to the costs of production at the Fårevejle plant.

In the financial year, Vitol and WPU have underlined and strengthened the co-operation by providing additional capital and expanding the offtake agreement with an additional production facility, bringing the total number of production facilities being covered by the agreement up to 5.

It is expected that the construction of the group's second plant (Nakskov) will begin in the second half of 2024. This new plant will be based on the valuable knowledge and experiences obtained during the building and optimization of the Fårevejle plant, and the management therefore has high expectations to the effectiveness of the construction of this second factory.

The management expects that the activities will generate profit from the second half of 2024, however, the year end result will still be negative but less than in 2023.

Events occurring after the end of the financial year

The company has been supported with a 24 MDKK loan from large shareholders in order to secure the liquidity until the production is steady and increasing which is expected to be from the beginning of May 2024.

Development projects in progress

Development projects in progress comprise of the development and test of new technical solutions to the Fårevejle upcycling facility. Costs are comprised of internal costs in the form of wages and salaries.

The new technical solutions are expected to generate considerable competitive advantages and lead to the upcycling facility experiencing a significant increase in activity levels and generate profit from the second half of 2024.

| | 10.058.189 | 6.037.331 | 2.960.461 | 1.705.139 |

The recognised tax asset primarily consists of deferred tax relating to tax loss carryforward. Management estimates future earnings in connection with the assessment of whether and when deferred tax assets will be utilised. Management has prepared a plan for the utilisation of the recognised tax asset. The recognised tax asset is expected to be utilised within the next 5 years.

In addition to the deferred tax assets recognized in the balance sheet, the subsidiary, Produktionselskabet Egebjerg ApS, holds tax assets amounting KDKK 4.984, pertaining to carried forward tax losses and tax balance on operating assets. These deferred tax assets haven't been recognized due to uncertainty.

Accounting policies

The annual report for WPU - Waste Plastic Upcycling A/S has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, write-downs for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the group and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the group and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost, allowing a constant effective interest rate to be recognised during the useful life of the asset or liability. Amortised cost is recognised as the original cost less any payments, plus/less accrued amortisations of the difference between cost and nominal amount. In this way, capital losses and gains are allocated over the useful life of the liability.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

The consolidated financial statements

The consolidated income statements comprise the parent company WPU - Waste Plastic Upcycling A/S and those group enterprises of which WPU - Waste Plastic Upcycling A/S directly or indirectly owns more than 50 % of the voting rights or in other ways exercise control.

Consolidation policies

The consolidated financial statements have been prepared as a summary of the parent company's and the group enterprises' financial statements by adding together uniform accounting records calculated in accordance with the group's accounting policies.

Investments in group enterprises are eliminated by the proportionate share of the group enterprises' fair value of net assets and liabilities at the acquisition date.

Accounting policies

In the consolidated financial statements, the accounting records of the group enterprises are recognised by 100%. The minority interests' share of the profit for the year and of the equity in the group enterprises, which are not 100% owned, is included in the group's profit and equity, but presented separately.

Purchases and sales of minority interests under continuing control are recognised directly in equity as a transaction between shareholders.

Investments in associates are measured in the statement of financial position at the proportionate share of the enterprises' equity value i calculated in accordance with the parent company's accounting policies and with proportionate elimination of unrealised intercompany gains and losses. In the income statement, the proportional share of the associates' results is recognised after elimination of the proportional share of intercompany gains and losses.

The group activities in joint operations are recognised in the consolidated financial statements record by record.

Income statement

Gross loss

Gross loss comprises the revenue, changes in inventories of finished goods, and work in progress, own work capitalised, other operating income, and external costs.

Cost of sales comprises costs concerning purchase of raw materials and consumables less discounts and changes in inventories.

Own work capitalised

Own work capitalised includes staff cost and other internal costs incurred during the financial year and recognised in the cost of proprietary intangible and tangible fixed assets.

Other operating income comprises items of a secondary nature as regards the principal activities of the enterprise, including profit from the disposal of intangible and tangible assets as well as operating loss and conflict compensation. Compensation is recognized when it is overwhelmingly probable that the company will receive the compensation.

Other external costs comprise costs incurred for distribution, sales, advertising, administration, premises, loss on receivables, and operational leasing costs.

Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

Accounting policies

Depreciation, amortisation, and write-down for impairment

Depreciation, amortisation, and write-down for impairment comprise depreciation on, amortisation of, and write-down for impairment of intangible and tangible assets, respectively.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial period. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

Results from investments in group enterprises

After full elimination of intercompany profit or loss less amortised consolidated goodwill, the equity investment in the individual entities are recognised in the income statement of the parent as a proportional share of the entities' post-tax profit or loss.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

The parent and the Danish group enterprises are subject to Danish rules on compulsory joint taxation of Danish group enterprises. The parent acts as an administration company in relation to the joint taxation. This means that the total Danish income tax payable by the Danish group companies is paid to the tax authorities by the company.

The current Danish income tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

Statement of financial position

Intangible assets

Development projects, patents, and licences

Development costs and internally generated rights are recognised in the income statement as costs in the acquisition year.

Property, plant, and equipment

Property, plant, and equipment are measured at cost less accrued depreciation and write-down for impairment. Land is not subject to depreciation.

Accounting policies

The depreciable amount is cost less any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, the depreciation is discontinued.

If the amortisation period or the residual value is changed, the effect on amortisation will, in future, be recognised as a change in the accounting estimates.

The cost comprises acquisition cost and costs directly associated with the acquisition until the time when the asset is ready for use.

The cost of a total asset is divided into separate components. These components are depreciated separately, the useful lives of each individual components differing, and the individual component representing a material part of the total cost.

Depreciation is done on a straight-line basis according to an assessment of the expected useful life:

| | Useful life |
|--|-------------|
| Buildings | 30 years |
| Plant and machinery | 5-10 years |
| Other fixtures and fittings, tools and equipment | 3-5 years |

Minor assets with an expected useful life of less than 1 year are recognised as costs in the income statement in the year of acquisition.

Profit or loss derived from the disposal of property, land, and equipment is measured as the difference between the sales price less selling costs and the carrying amount at the date of disposal. Profit or loss is recognised in the income statement as other operating income or other operating expenses.

As regards self-constructed assets, the cost comprises direct costs for materials, components, deliveries from sub-suppliers, payroll costs, and borrowing costs from specific and general borrowing concerning the construction of each individual asset.

Property, plant, and equipment in progress

Property, plant, and equipment in progress are measured and recognised as the total costs incurred. When the work has been completed, the total value is transferred to the relevant item under property, plant, and equipment and is amortised from the date of entry into service.

Leases

The enterprise will be applying IAS 17 as its base of interpretation for recognition of classification and recognition of leases.

Accounting policies

All other leases are regarded as operating leases. Payments in connection with operating leases and other lease agreements are recognised in the income statement for the term of the contract. The group's total liabilities concerning operating leases and lease agreements are recognised under contingencies, etc.

Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets as well as equity investments in group enterprises are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. write-down for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

Investments

Investments in group enterprises

Investments in group enterprises are recognised and measured by applying the equity method. The equity method is used as a method of consolidation.

Investments in group enterprises are recognised in the statement of financial position at the proportionate share of the enterprise's equity value. This value is calculated in accordance with the parent's accounting policies with deductions or additions of unrealised intercompany gains and losses as well as with additions or deductions of the remaining value of positive or negative goodwill calculated in accordance with the acquisition method. Negative goodwill is recognised in the income statement at the time of acquisition of the equity investment. If the negative goodwill relates to contingent liabilities acquired, negative goodwill is not recognised until the contingent liabilities have been settled or lapsed.

In relation to material assets and liabilities recognised in group enterprises but are not represented in the parent, the following accounting policies have been applied.

Investments in group enterprises with a negative equity value are measured at DKK 0, and any accounts receivable from these enterprises are written down to the extent that the account receivable is uncollectible. To the extent that the parent has a legal or constructive obligation to cover a negative balance that exceeds the account receivable, the remaining amount is recognised under provisions.

Accounting policies

To the extent the equity exceeds the cost, the net revaluation of equity investments in group enterprises transferred to the reserve under equity for net revaluation according to the equity method. Dividends from group enterprises expected to be adopted before the approval of this annual report are not subject to a limitation of the revaluation reserve. The reserve is adjusted by other equity movements in group enterprises.

Newly acquired or newly established companies are recognised in the financial statement as of the time of acquisition. Sold or liquidated companies are recognised until the date of disposal.

On the acquisition of enterprises, the acquisition method, the uniting-of-interests method or the book value method is applied, cf. the above description under Business combinations.

Deposits

Deposits are measured at amortised cost and represent lease deposits, etc.

Inventories

Inventories are measured at cost according to the FIFO method. In cases when the net realisable value of the inventories is lower than the cost, the latter is written down for impairment to this lower value.

Costs of goods for resale, raw materials, and consumables comprise acquisition costs plus delivery costs.

Costs of manufactured goods and work in progress comprise the cost of raw materials, consumables, direct wages, and indirect production costs. Indirect production costs comprise indirect materials and wages, maintenance and depreciation of machinery, factory buildings, and equipment used in the production process, and costs for factory administration and factory management. Borrowing expenses are not recognised in cost.

The net realisable value for inventories is recognised as the estimated selling price less costs of completion and selling costs. The net realisable value is determined with due consideration of negotiability, obsolescence, and the development of expected market prices.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

In order to meet expected losses, impairment takes place at the net realisable value. The company has chosen to use IAS 39 as a basis for interpretation when recognising impairment of financial assets, which means that impairments must be made to offset losses where an objective indication is deemed to have occurred that an account receivable or a portfolio of accounts receivable is impaired. If an objective indication shows that an individual account receivable has been impaired, an impairment takes place at individual level.

Accounting policies

Accounts receivable for which there is no objective indication of impairment at the individual level are evaluated at portfolio level for objective indication of impairment. The portfolios are primarily based on the debtors' domicile and credit rating in accordance with the company's and the group's credit risk management policy. Determination of the objective indicators applied for portfolios are based on experience with historical losses.

Impairment losses are calculated as the difference between the carrying amount of accounts receivable and the present value of the expected cash flows, including the realisable value of any securities received. The effective interest rate for the individual account receivable or portfolio is used as the discount rate.

Prepayments

Prepayments recognised under assets comprise incurred costs concerning the following financial year.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand.

Equity

Share premium

Share premium comprises premium payments made in connection with the issue of shares. Costs incurred for carrying through an issue are deducted from the premium.

The premium reserve can be used for dividend, for issuing bonus shares, and for covering losses.

Reserve for development costs

The reserve for development costs comprises recognised development costs less related deferred tax liabilities.

The reserve cannot be used as dividends or for covering losses.

The reserve is reduced or dissolved if the recognised development costs are amortised or abandoned. This is done by direct transfer to the distributable reserves of the equity.

Income tax and deferred tax

As administration company, WPU - Waste Plastic Upcycling A/S is liable to the tax authorities for the subsidiaries' corporate income taxes.

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Accounting policies

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the Danish tax prepayment scheme.

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Tax receivables from group enterprises" or "Income tax payable to group enterprises"

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

Liabilities other than provisions

Mortgage loans and bank loans are thus measured at amortised cost which, for cash loans, corresponds to the outstanding payables. For bond loans, the amortised cost corresponds to an outstanding payable calculated as the underlying cash value at the date of borrowing, adjusted by amortisation of the market value on the date of the borrowing effectuated over the repayment period.

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

Statement of cash flows

The cash flow statement shows the cash flows for the year, divided in cash flows deriving from operating activities, investment activities and financing activities, respectively, the changes in the liabilities, and cash and cash equivalents at the beginning and the end of the year, respectively.

The effect on cash flows derived from the acquisition and sale of enterprises appears separately under cash flows from investment activities. In the statement of cash flows, cash flows derived from acquirees are recognised as of the date of acquisition, and cash flows derived from sold enterprises are recognised until the date of sale.

Accounting policies

Cash flows from operating activities

Cash flows from operating activities are calculated as the group's share of the profit adjusted for non-cash operating items, changes in the working capital, and corporate income tax paid. Dividend income from equity investments are recognised under “Interest income and dividend received”.

Cash flows from investment activities

Cash flows from investment activities comprise payments in connection with the acquisition and sale of enterprises and activities as well as the acquisition and sale of intangible assets, property, plant, and equipment, and investments, respectively.

Cash flows from financing activities

Cash flows from financing activities include changes in the size or the composition of the group's share capital and costs attached to it, as well as raising loans, repayments of interest-bearing payables and payment of dividend to shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand with deduction of short-term bank debts and short-term securities with a maturity less than 3 months that are readily convertible into cash and which are subject to an insignificant risk of changes in value.
