Management's statement

The Board of Directors and the Executive Board have today discussed and approved the annual report of Ambu Operations A/S for the financial year 21 December 2020 to 30 September 2021.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 30 September 2021 and of the results of the company's operations for the financial year 21 December 2020 – 30 September 2021.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Ambu Operations A/S

Opinion

We have audited the financial statements of Ambu Operations A/S for the financial year 21 December 2020 – 30 September 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 30 September 2021 and of the results of the Company's operations for the financial year 21 December 2020 – 30 September 2021 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

Independent auditor's report

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Notes

1 Accounting policies

The annual report of Ambu Operations A/S for 2020/21 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to reporting class B entities and elective choice of certain provisions applying to reporting class C entities.

The functional currency of the entity is USD.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial expenses.

Non-current assets acquired in foreign currency are measured at the exchange rate at the transaction date.

Presentation of income statement

Selling and distribution costs

Selling and distribution costs comprise costs for sales staff, advertising and exhibitions, depreciation, impairment and operation of central warehouses, as well as all costs relating to the transport of goods from the group's factories to the customers.

Management and administrative costs

Administrative expenses include costs incurred during the year regarding management and administration of the Company, inclusive of costs relating to the administrative staff, executives, office premises, office expenses, etc. and related amortisation.

Other operating income

Other operating income includes items of a secondary nature in relation to the company's activities, including grants from the parent company.

Tax for the year

Tax for the year which consists of current tax for the year and changes in deferred tax. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts recognised directly in equity is recognised directly in equity.

Financial statements 21 December 2020 – 30 September 2021**Notes****1 Accounting policies (continued)****Balance sheet****Property, plant and equipment**

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost comprises the acquisition price and any costs directly attributable to the acquisition until the date when the asset is ready for use. The cost of a total asset is divided into separate elements which are depreciated individually when the useful lives of the individual elements differ.

The basis of depreciation is calculated in consideration of the residual value of the asset and is reduced by impairment losses, if any. The residual value is fixed at the date of acquisition and is subject to annual review. When the residual value exceeds the carrying amount of the asset, depreciation will no longer take place. In connection with changes in the depreciation period or the residual value, the effect of depreciation is recognized in future as a change in the accounting estimate.

The carrying amount of property, plant and equipment is assessed on an annual basis to establish whether there is any indication of impairment. When such indication exists, an impairment test is performed. An impairment loss is recognized when the carrying amount of an asset exceeds the recoverable amount of the asset.

Property, plant and equipment under construction are not ready for use and not depreciated.

Investments in subsidiary

Equity investments are measured at cost. Cost includes the consideration measured at fair value plus direct acquisition costs. In case of indication of impairment, an impairment test is conducted. Equity investments are written down to the lower of the carrying amount and the recoverable amount.

Inventories

Inventories are measured at the lower of cost calculated according to the FIFO principle and net realisable value. The net realisable value is calculated as the selling price less costs of completion and costs necessary to make the sale. The cost of goods for resale as well as raw materials and consumables comprises the acquisition price plus delivery costs.

The cost of manufactured goods comprises the cost of raw materials, consumables, direct labour costs and production overheads in the form of logistics and planning costs, production management as well as expenses for production facilities and equipment etc.

Receivables

Receivables are measured at amortised cost which usually corresponds to nominal value. The value is reduced by write-down to meet expected losses.

Cash and cash equivalents

Cash and cash equivalents comprise bank balances and cash on hand. These are carried in the balance sheet at fair value.

Income tax and deferred tax

Current tax payables and receivables are recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on prior-year taxable income and tax paid on account.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on the intended use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carryforwards, are measured at the value at which they are expected to be utilised, either through elimination against tax on future earnings or through a set-off against deferred tax liabilities within the same legal tax entity. Any deferred net assets are measured at net realisable values.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Changes in deferred tax due to changes in tax rates are recognised in the income statement.

Liabilities

Financial liabilities comprising trade payables are recognised at the date of borrowing at cost, corresponding to the proceeds received less transaction costs paid. In subsequent periods, financial liabilities are measured at amortised cost.

Other liabilities are measured at net realisable value.
