Management's statement

The Executive Board has today considered and adopted the Consolidated Financial Statements and Parent Company Financial Statements of Coolshop Holding ApS for the financial year 1 July 2022 - 30 June 2023.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In my opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 30 June 2023 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2022/23.

In my opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

I recommend that the Consolidated Financial Statements and Parent Company Financial Statements be adopted at the Annual General Meeting.

Nørresundby, 15 November 2023

Executive Board

Mark Fjeldal Dalsgaard Nielsen
CEO

Independent Auditor's report

To the shareholders of Coolshop Holding ApS

Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 30 June 2023 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 July 2022 - 30 June 2023 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Coolshop Holding ApS for the financial year 1 July 2022 - 30 June 2023, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's responsibilities for the Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

Independent Auditor's report

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent Auditor's report

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's review

Key activities

The Group's business activities are mainly within physical trade and e-commerce, with a broad range of product categories. Products are sourced and sold internationally to both corporate and private consumers

Development in the year

The Group posted a profit before tax of DKKm 20.6 for FY 2022/2023, the profit is under the circumstances considered to be satisfactory, but on the economical level, it did not fully meet the expectations.

For FY 2022/2023, it was expected that the Group's new markets and product categories would contribute to further growth in revenue and profit. Activities rose markedly, and operation profit improved compared with the previous financial year, thus matching expectations for the financial year.

The expanding activities contributed to a growing revenue for the FY 2022/23, and revenue grew 18 % compared to the year before. Prices towards the end customers were kept on a low level and, gross profit for the Group decreased by 32 % on the previous financial year.

Other external expenses and Staff expenses of DKKm 230.8. Staff expenses is reduced compared to last year after consolidation of the warehouse capacity in Nørresundby, and the closing of warehouse in Herning.

Profit after tax was DKKm 15.5 compared with DKKm 87.6 in FY 2021/22.

Balance sheet

The balance sheet of the Coolshop Holding Group totalled DKKm 574 as of 30 June 2023 compared with DKKm 468 in the previous financial year.

The strong upturn in activities and the initial construction of larger warehouse facilities in Nørresundby, Denmark, affected the balance sheet.

Equity amounted to DKKm 186 against DKKm 187 as of 30 June 2022.

The Group's solvency ratio was 32.4% compared with 39.9% in the preceding financial year.

Cash flow

The Group's net cash flow amounted to DKKm 3 for the year under review of which cash flow from operating activities made up DKKm 21.

Operating risks

The Coolshop Holding Group is an international trading company, which is engaged in e-commerce and B2B sales and has subsidiaries abroad. Accordingly, the Group's performance in terms of profit and capital structure is subject to a number of business risks.

The Company's daily operations require ongoing management of a number of commercial risks relating to markets, products, customers, suppliers etc. The Group's most important operational risk pertains to the maintenance of a strong position in the markets of sourcing and of the efficiency of distribution to customers.

The Group is continuously subject to the usual risks in the form of political regulation of imports, electronics, duties and charges, and e-commerce.

In Managements assessment, the Group are not exposed to particular risks apart from those generally occurring in the line of business described above.

Management's review

Targets and expectations for the year ahead

In the next financial year, the management of Coolshop Holding ApS expects the positive development in activities to continue within almost all important business areas leading to a pre-tax profit in the range of DKKm 30-40. The improved result from operation activities in 2023/24 is due to higher revenue and more rational operations.

Knowledge resources

The Group has introduced relevant, efficient systems and procedures to ensure that knowledge remains in the Group. These activities and systems ensure low vulnerability to the loss of knowledge in the Group.

Statement of corporate social responsibility

This part includes the mandatory review of the Company's corporate responsibility pursuant to section 99a of the Danish Financial Statements Act.

Business model and commitment

Being an international trading company and selling a broad range of products to private consumers, the Coolshop Holding Group meets the national and international guidelines on good conduct and practice by companies, employees and organizations that govern the way in which we perform our business activities.

These internal rules help our employees maintain ethical standards when adding value through cooperation with customers and suppliers.

Our trading activities conform with current legislation within our business areas. Entertainment Trading applies the principles of responsible business ethics and expects that all our employees observe the rules governing the Group's activities, regardless of their particular functions in the Group.

Coolshop Holding Group continuously strives to conform with all appropriate business standards and responsible business principles in connection with all types of cooperation. This includes observance of extensive rules on imported electronics and toys to European consumers.

In addition to its internal responsibility to its staff, the Group also has an external responsibility to the countries and societies in which we operate. As an active company, we aim to create value to the local societies in which we are present in addition to reaching our financial goals. This means that we comply with legislation in the countries and local societies in which we operate.

Environment

As Coolshop Holding Group is a trading company, our risks regarding climate and the environment chiefly relate to transportation of goods. The Group meets consumer interests and requirements in this respect. The Group supports and makes sustainable choices for the transportation of goods in a number of areas. Accordingly, where possible, the Group will choose to transport goods via vessels using low carbon fuel rather than vessels using conventional fuel. In 2022/2023, the Group increased their ambition in this area and from 1st of January 2023 all container transports were compensated by purchasing advanced maritime biofuel certificates. We aim to continue this process in the coming years.

Staff

The Coolshop Holding Group is aware of the importance of committed, competent and loyal staff to the Group. Therefore, internal guidelines, objectives and strategies ensure a safe and healthy work environment.

Thus, it is the Group's policy to have attractive work conditions offering the possibility of professional and personal development and to make serious efforts to create a positive work environment. Management continuously aims to enhance work satisfaction through staff interviews and surveys. A low sickness absence rate is considered to be an indicator that our employees are thriving in a good work environment. In 2022/2023, sickness absence was reduced by 30% compared to last year.

Management's review

The Company has set up a committee which for many years has made initiatives to enhance well-being and job satisfaction. The committee has its own budget and operates independently of management.

The internal focus on great culture and leadership development among the leaders in the company – has resulted in a drop in the employee turnover in 2022/23 of 30% compared to the year before.

The Group expects that the ongoing focus on job satisfaction and improvement of work conditions – along with the work with the company culture and leadership development will result in positive feedback in future job satisfaction surveys as well as a reduction in sickness absence and employee turnover.

Social factors

The Coolshop Holding Group also exercises its social responsibility through the recruitment of employees, payment of VAT and other taxes in pursuance of current legislation in the countries in which the Group is represented. The Group's international activities create job opportunities for the local population, both in the Company's own offices and shops and through the Group's cooperation and trading with local suppliers. Thus, it is Entertainment Trading's policy that employees in foreign branches pay applicable direct and indirect taxes in the countries where the branches are located.

When implementing this policy, the Group's administration made tax-related reviews of staff salaries in both foreign branches and subsidiaries.

It is the Group's policy to observe prevailing differential treatment rules concerning race, colour, gender, ethnic or national origin, age, political views etc.

The Coolshop Holding Group makes annual donations to charity. The Group's main focus is to support, develop and strengthen vulnerable, sick and exposed children. This support is chiefly offered via the charity CoolUnite; Entertainment Trading has extended financial support – sponsorships and collection of donations by the Group's customers – and has participated in fundraising events.

The Group plans to continue the cooperation with the charity CoolUnite in the coming year, and it is expected that the Group will increase its support.

The Coolshop Holding Group has in the year 2022/23 entered into a non-profit corporation with The Business Schools of Aalborg by the establishment of Coolshop Masterclass program. The Group will use both economical and leadership resources and support a given class with an extra educational program towards a more practical approach in their learnings during their education where leaders of The Group will spend time with the students during the 2 years education.

Human rights

As a consequence of the Group's activities in markets beyond the Danish borders, it is the Group's policy to carefully observe the profiles of customers and suppliers prior to engaging with them in order to observe general human rights.

The Coolshop Holding Group's business model ensures that most trading partners are major reputable brands that have good control and compliance programmes within this area.

It is the Group's view that no sub-supplier agreements can be concluded if such partners have an opinion of human rights that markedly differs from that of management. Suppliers are invited to accept Entertainment Trading's Terms of Business, and they asked to state that they can adhere to our code of conduct prior to cooperation. In the financial year 2022/23, the number of accepting suppliers has been on the rise. This process will be continued in the next financial year.

Fighting corruption and bribery

It is the Coolshop Holding Group's policy that staff must not accept any kind of direct or indirect bribes or special remuneration in any form including money, goods or services, if such remuneration may be considered part of recognized local or international corruption or bribery practice.

Management's review

We are aware of the risk of being unintentionally involved in money laundering. In order to avoid this risk, we endeavour to base our business relations on trustworthy and professional business partners. We select our business partners carefully based on our long established experience of the sector.

We actively communicate our expectations of staff behaviour in this regard to all the employees of the Group at all levels.

In the financial year under review, we implemented procedures to avoid any involvement in money laundering through third party payments or attempts to do so. We anticipate that these procedures coupled with ongoing communication to our customers and staff will minimize or eliminate the risk.

Statement on gender composition

The Group does not have an even gender distribution in its top management.

The Board of Directors acknowledges that a more even gender distribution may have a favourable impact on the work processes of the Board of Directors and of the enterprise as such. Therefore, it has adopted a target that 25-30% of the Board of Directors should consist of the underrepresented gender by 2024.

The target for the underrepresented gender for FY 2022-23 was not reached. The Groups Board of Directors are all new; the elected members are two owners and a senior executive of the Company, who are all male. There hasn't only been one change in Board of Directors and this was a replacement of the company's lawyer with a senior executive of the Company who is also a man, therefore targets have not been met.

With respect to the other management levels, Coolshop Holding Group endeavours to fill all management positions with the best qualified candidates irrespective of gender. Men are overrepresented on the Executive Board and in the middle management layer, however, the female representation in these management layer equals 30% in the period under review, which is an increase compared to last year.

In order to increase the share of female managers, the Group has ensured that both genders always are represented among future manager candidates at the final recruitment stage.

Statement on data ethics

The Group's employees are obliged to process personal information in a responsible manner and according to the regulations in the Group's GDPR policy. All the Group's stakeholders can be certain that the Group processes personal sensitive information and that this is only used for necessary business purposes. The Group's processing of sensitive personal information is processed in accordance with applicable legislation and regulations.

Processing of sensitive personal information is limited to necessary information that supports operational purposes, customer-specific activities, personnel administration, etc.

The Group handles ordinary data in the form of customer data, supplier data and other internal data, which is processed in accordance with the GDPR and our policies for privacy and information security.

New technologies

The Group uses advanced technologies to a limited extent towards customers. Machine learning is used to a limited extent in connection with online purchases, so that customers' purchase preferences are logged.

Only a small part of artificial intelligence related to standard software systems are used in the Group.

The Group does not have a written policy regarding data ethics. It is continuously assessed whether this should be changed.

Subsequent events No material events have occurred after the balance sheet date that have had a significant impact on the financial position of the Company.

Recognition and measurement

The Financial Statements have been prepared under the historical cost method.

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Basis of consolidation

The Consolidated Financial Statements comprise the Parent Company, Coolshop Holding ApS, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and losses on transactions between the consolidated enterprises.

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

Business combinations

Business acquisitions carried through on or after 1 July 2018

Acquisitions of subsidiaries are accounted for using the purchase method under which the identifiable assets and liabilities of the entity acquired are measured at fair value at the time of acquisition. Acquired contingent liabilities are recognised at fair value in the Consolidated Financial Statements to the extent that the value can be measured reliably.

The time of acquisition is the time when the Group obtains control of the entity acquired.

The cost of the entity acquired is the fair value of the consideration agreed, including consideration contingent on future events. Transaction costs directly attributable to the acquisition of subsidiaries are recognised in the income statement as incurred.

Notes to the Financial Statements

Positive differences between the cost of the entity acquired and identifiable assets and liabilities are recognised as goodwill in intangible assets in the balance sheet and are amortised in the income statement on a straight-line basis over their estimated useful lives. Where the differences are negative, they are recognised immediately in the income statement.

Where the purchase price allocation is not final, positive and negative differences from acquired subsidiaries due to changes to the recognition and measurement of identifiable net assets may be adjusted for up to 12 months after the time of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.

Where cost includes contingent consideration, this is measured at fair value at the time of acquisition. Contingent consideration is subsequently measured at fair value. Any value adjustments are recognised in the income statement.

In respect of step acquisitions, any previously held investments in the entity acquired are remeasured at fair value at the time of acquisition. The difference between the carrying amount of the investment previously held and the fair value is recognised in the income statement.

Business acquisitions carried through before 1 July 2018

Subject to some exemptions, acquisitions carried through before 1 July 2018 are accounted for under the same accounting policies as those applying to business combinations carried through on or after 1 July 2018. The most material exemptions are:

- Identifiable assets and liabilities of the entity acquired are recognised only if they are probable.
- Identifiable contingent liabilities of the entity acquired are not recognised in the consolidated balance sheet.
- Where the purchase price allocation is not final, positive and negative differences due to changes to the recognition and measurement of the acquired net assets may be adjusted until the end of the financial year following the year of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.
- Transaction costs directly attributable to the acquisition of subsidiaries are included as part of cost.
- After the initial recognition, adjustment of contingent consideration is recognised directly with its counter entry in initial purchase price, thus correcting the value of goodwill or negative goodwill.
- In respect of step acquisitions, the carrying amount of the existing investments is recognised in cost.

Notes to the Financial Statements

Minority interests

Minority interests form part of the Group's total equity. Upon distribution of net profit, net profit is broken down on the share attributable to minority interests and the share attributable to the shareholders of the Parent Company. Minority interests are recognised on the basis of a remeasurement of acquired assets and liabilities to fair value at the time of acquisition of subsidiaries.

Business acquisitions carried through before 1 July 2018

Minority interests are recognised at the carrying amounts of the acquired assets and liabilities at the time of acquisition of subsidiaries.

Business acquisitions carried through on or after 1 July 2018

Minority interests are initially measured at their proportionate share of the fair value of the acquired entity's identifiable net assets. In this way, only goodwill related to the Parent Company's share of the entity acquired is recognised.

On subsequent changes to minority interests where the Group retains control of the subsidiary, the consideration is recognised directly in equity.

Leases

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or an alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Group.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Segment information on revenue

Information on geographical segments is based on the Group's risks and returns and its internal financial reporting system. Business segments are regarded as the primary segments.

Notes to the Financial Statements

Income statement

Net sales

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Group.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

Cost of goods sold

Cost of goods sold comprise the purchase price etc. for goods sold in the year.

Other external expenses

Other external expenses comprise expenses for premises, sales as well as office expenses, etc.

Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses, including holiday allowance, pension, other social security costs, ect. to the Company's employees.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group, including gains and losses on the sale of intangible assets and property, plant and equipment.

Income from investments in subsidiaries and associates

The items "Income from investments in subsidiaries" and "Income from investments in associates" in the income statement include the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with wholly owned Danish subsidiaries. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

Notes to the Financial Statements

Balance sheet

Intangible fixed assets

Goodwill

Goodwill is amortised on a straight-line basis over the estimated useful life of 10 years, determined on the basis of Management's experience with the individual business areas.

Development projects

Costs of development projects comprise salaries, amortisation and other expenses directly or indirectly attributable to the Company's development activities.

Development projects that are clearly defined and identifiable and in respect of which technical feasibility, sufficient resources and a potential future market or development opportunity in the enterprise can be demonstrated, and where it is the intention to manufacture, market or use the project, are recognised as intangible assets. This applies if sufficient certainty exists that the value in use of future earnings can cover cost of sales, distribution and administrative expenses involved as well as the development costs.

Development projects that do not meet the criteria for recognition in the balance sheet are recognised as expenses in the income statement as incurred.

Capitalised development costs are measured at cost less accumulated amortisation and impairment losses or at a lower recoverable amount. An amount corresponding to the recognised development costs is allocated to the equity item 'Reserve for development costs'. The reserve comprises only development costs recognised in financial years beginning on or after 1 January 2016. The reserve is reduced by amortisation of and impairment losses on the development projects on a continuing basis.

As of the date of completion, capitalised development costs are amortised on a straight-line basis over the period of the expected economic benefit from the development work. The amortisation period is 5-10 year.

Other intangible fixed assets

Acquired other similar rights are measured at cost less accumulated amortisation and less any accumulated impairment losses or at a lower value in use.

Acquired other similar rights are amortised over the remaining patent period or a shorter useful life. The amortisation period is 5-10 years.

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

| | |
|--|-----------|
| Land and buildings | 25 years |
| Other fixtures and fittings, tools and equipment | 2-5 years |
| Leasehold improvements | 3 years |

The fixed assets' residual values are determined at nil.

Depreciation period and residual value are reassessed annually.

Notes to the Financial Statements

Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment and investments are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries and associates

Investments in subsidiaries and associates are recognised and measured under the equity method.

The items “Investments in subsidiaries” and “Investments in associates” in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries and associates is transferred upon distribution of profit to “Reserve for net revaluation under the equity method” under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries and the associates.

Subsidiaries and associates with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

Fixed asset investments

Investments which are not traded in an active market are measured at the lower of cost and recoverable amount.

Other fixed asset investments

Other fixed asset investments consist of deposit and receivables which are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

Inventories

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses and costs of completion. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale equals landed cost.

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Notes to the Financial Statements

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

Financial debts

Loans, such as loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

Deferred income

Deferred income comprises payments received in respect of income in subsequent years.

Cash Flow Statement

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Notes to the Financial Statements

Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand".

The cash flow statement cannot be immediately derived from the published financial records.

Financial Highlights

Explanation of financial ratios

| | |
|------------------|--|
| Gross margin | $\text{Gross profit} \times 100 / \text{Revenue}$ |
| Profit margin | $\text{Profit before financials} \times 100 / \text{Revenue}$ |
| Return on assets | $\text{Profit before financials} \times 100 / \text{Total assets at year end}$ |
| Solvency ratio | $\text{Equity at year end} \times 100 / \text{Total assets at year end}$ |
| Return on equity | $\text{Net profit for the year} \times 100 / \text{Average equity}$ |
