Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

Management's statement

Today, the Executive Board has approved the annual report of Allianz Real Estate Hedeland 2 ApS for the financial year 1 January - 31 December 2022.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January – 31 December 2022.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Independent auditor's report

To the shareholders of Allianz Real Estate Hedeland 2 ApS

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January to 31 December 2022 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Allianz Real Estate Hedeland 2 ApS for the financial year 1 January to 31 December 2022, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("the Financial Statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's responsibilities for the audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusions thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement in Management's Review.

Independent auditor's report

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

The measurement of properties is made using a returnbased cash flow model based on expected future net cash flows over a period of 10 years. The required rate of return is determined by an external assessor. The fair value measurement is made on the basis of estimated rental income and expected operating costs, including scheduled maintenance. Cash flows beyond the 10th year (terminal value) is determined according to a netrent model based on the 10th year, but at average estimates as to vacant periods, improvement costs, major maintenance costs, and investments. Cash flows from each year and the value of the terminal year are discounted with the required rate of return determined for each individual property with addition of inflation.

Compared to the previous financial year, the methods of measurement remain unchanged.

The material, nonobservable inputs in relation to the calculation of the fair value are:

	<u>2022</u>
Annual rent per square meter, DKK	52,43
Discount rate %	5,5

Notes

4. Disclosures on fair value

	<u>Investment property</u>
Fair value at 31 December 2022	1.350.000
Unrealised change in fair value of the year recognised in the statement of financial activity	<u>-90.705</u>

5. Charges and security

The company has no charges or securities.

6. Contingencies

Contingent assets

The company has an unrecognized deferred tax asset of TDKK 20.527.

Joint taxation

With Allianz Hedeland Logistics ApS, company reg. no 42892246 as administration company, the company is subject to the Danish scheme of joint taxation and unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for the total corporation tax.

The jointly taxed enterprises' total known net liability to the Danish tax authorities emerges from the financial statements of the administration company.

Any subsequent adjustments of corporate taxes or withholding tax, etc., may result in changes in the company's liabilities.

7. Related parties

Controlling interest

Allianz Hedeland Logistics ApS, Fiolstræde 44, 3. th, 1171 Copenhagen K. Majority shareholder

Ownership

The following shareholders in the company own a minimum of 5% of the votes or a minimum of 5% of the share capital:

Allianz Hedeland Logistics ApS, Fiolstræde 44, 3.th, 1171 Copenhagen K.

Accounting policies

The annual report for Allianz Real Estate Hedeland 2 ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

Changes in the accounting policies

In the financial year, the company completed and put the investment property into use and, in that connection, has chosen to change the accounting practices regarding the recognition and measurement thereof.

The investment property is recognized at fair value instead of at cost less depreciation.

The change in accounting practices has meant that the year's profit after tax and equity has been negatively affected by TDKK 70.750. Furthermore, the balance sheet has decreased by TDKK 90.705.

The change in accounting policies has not affected the comparative figures.

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, write-downs for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the company and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the company and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost, allowing a constant effective interest rate to be recognised during the useful life of the asset or liability. Amortised cost is recognised as the original cost less any payments, plus/less accrued amortisations of the difference between cost and nominal amount. In this way, capital losses and gains are allocated over the useful life of the liability.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

Accounting policies

Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognised in the income statement under financial income and expenses.

Fixed assets acquired and paid for in foreign currency are measured at the exchange rate prevailing at the date of the transaction.

Income statement

Gross profit

Gross profit comprises the revenue and external costs.

Other external expenses comprise expenses incurred for administration.

Value adjustment of investment property

Value adjustment of investment property comprises value adjustments of properties at fair value and profit or loss from the disposal of properties.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses as well as debt and transactions in foreign currency, etc.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

The company is subject to Danish rules on compulsory joint taxation of Danish group enterprises.

The current Danish income tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

Statement of financial position

Investment property

At the initial recognition, investment property is measured at cost, comprising the cost of the property and directly associated costs, if any.

Hereafter, investments are measured individually on the basis of a return-based cash flow model based on expected future net cash flows over a period of 10 years. The required rate of return is determined by an external assessor. Fair value measurement is made on the basis of estimated lease income and expected operating costs, including scheduled maintenance. Compared to the previous financial year, the method of measurement remains unchanged.

Costs adding new or improved qualities to an investment property compared to its condition at the time of acquisition, thereby improving the future return on the property, are added to the cost as an improvement. Costs which do not add new or improved qualities to an investment property are recognised in the income statement under the item "Costs concerning investment property".

Like other property, plant, and equipment except for land, investment property has a limited economic life. The impairment taking place concurrently with the ageing of the investment property is reflected in the continuing measurement of the investment property at fair value.

Value adjustments are recognised in the income statement under the item "Value adjustments of property".

Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. write-down for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

Accounting policies

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand.

Equity

Dividend

Dividend expected to be distributed for the year is recognised as a separate item under equity.

Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the Danish tax prepayment scheme.

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Income tax receivable" or "Income tax payable".

According to the rules of joint taxation, Allianz Real Estate Hedeland 2 ApS is unlimitedly, jointly, and severally liable to pay the Danish tax authorities the total income tax, including withholding tax on interest, royalties, and dividends, arising from the jointly taxed group of companies.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Liabilities other than provisions

Liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.
