Management's Review

The Company's principal activities

The Company's principal activities consist of the ownership of the property at Skanderborgvej 275, 8260 Viby J.

Development in activities and financial matters

The Company's Income Statement of the financial year 1 January 2023 - 31 December 2023 shows a result of kDKK -697 and the Balance Sheet at 31 December 2023 a balance sheet total of DKK 21.845 and an equity of kDKK 5.292. The result is in line with the expectations for the year.

Post financial year events

After the end of the financial year, no events have occurred which may change the financial position of the entity substantially.

Expectations for the future

The Company expects a result before tax between 0 and -1 mDKK.

Accounting Policies

Reporting Class

The annual report of Ejendomsanpartsselskabet St. Ravnsbjerg. Viby J for 2023 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B, with the adoption of individual rules from class C.

The accounting policies applied remain unchanged from last year.

Reporting currency

The annual report is presented in thousand Danish kroner.

Income statement

Gross profit/loss

The Company has decided to aggregate certain items of the income statement in accordance with the provisions of Section 32 of the Danish Financial Statements Act.

Gross profit is a combination of the items of revenue, change in inventories of finished goods, work in progress and goods for resale, other operating income, costs for raw materials and consumables and other external expenses.

Financial income and costs

Financial income and costs are recognised in the Income Statement based on the amounts that concern the financial year.

Tax on net profit for the year

Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

The Company and the Danish associates are taxed jointly. The Danish income tax is distributed between profit- and loss-making Danish enterprises in relation to their taxable income (full distribution).

Balance sheet

Property, plant and equipment

Property, plant and equipment are measured at cost on initial recognition and subsequently at cost less accumulated depreciation and impairment losses.

The depreciable amount is calculated taking into consideration the residual value of the asset at the end of its useful life, reduced by impairment losses, if any. The depreciation period and the residual value are determined at the data of acquisition. If the residual value exceeds the carrying amount of the asset, depreciation is discontinued.

In case of changes in depreciation period or residual value, the effect of a change in depreciation period is recognised prospectively in accounting estimates.

Cost includes the purchase priceand expenses directly related to the acquisition until the time when the asset is ready for use. The cost of self-constructed assets includes costs for materials, components, subcontractors, direct payroll costs and indirect production costs.

The cost of composite asset is disaggregated into components, which are seperately depreciated if the usefull lives of the individual components differ.

Accounting Policies

Deferred tax

Deferred tax and the associated adjustments for the year are determined according to the liability method as the tax base of all temporary differences between carrying amounts and the tax bases of assets and liabilities.

Deferred tax assets, including the tax base of tax losses allowed for carryforward, are recognised at the value at which they are expected to be used, either by elimination in tax on future earnings or by set-off against deferred tax liabilities in enterprises within the same legal entity and jurisdiction.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation applicable at the balance sheet date when the deferred tax is expected to crystallize as current tax.

Current tax liabilities

Current tax liabilities and current tax receivables are recognised in the balance sheet as estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Liabilities

Liabilities are measured at amortised cost.

Contingent assets and liabilities

Contingent assets and liabilities are not recognised in the Balance Sheet but appear only in the notes.

5. Payables to group companies

The Company participates in the cash pool arrangement for Arla Foods Group, managed by Arla Foods Finance A/S. As part of the cash pool, the Company participates in the In-House Bank and holds SAP bank accounts that is deemed as an external bank account from the Company's point of view with balances being booked as intercompany asset/liability.

The conditions outlined within the cash pooling agreement grant the right to mutually offset withdrawals and deposits, resulting in only the net balance of all pooled accounts being reflected as Arla Foods Finance A/S' balance within the In-House bank.

The amount recognized as payables to group companies relating to the cash pool agreement for Ejendomsselskabet St. Ravnsbjerg. Viby J amounts to 12.537 kDKK as of 31 December 2023 (2022: 11.757 kDKK).

Notes

6. Contingent liabilities

No contingent liabilities exist at the balance sheet date.

The company has joint and several tax liability, with other Danish group companies for company taxes. This also includes withholding taxes on dividends, interest and royalties within the group. The total known net tax liability of the jointly taxed companies is shown in the management company's annual accounts of Arla Foods Holding A/S CVR no 27466052. Any subsequent corrections to co-taxation income and withholding tax etc. could result in the company's liability being higher or lower.
