Ledelsespåtegning

The Executive Board and Board of Directors have today considered and adopted the Annual Report of SKAKO Concrete A/S for the financial year 1 January - 31 December 2016.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the financial position at 31 December 2016 of the Company and of the results of the Company operations and cash flows for 2016.

We recommend that the Annual Report be adopted at the Annual General Meeting.

To the Shareholders of SKAKO Concrete A/S

Konklusion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2016, and of the results of the Company's operations for the financial year 1 January - 31 December 2016 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of SKAKO Concrete A/S for the financial year 1 January - 31 December 2016, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

Grundlag for konklusion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Ledelsens ansvar for regnskabet

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Revisors ansvar for revisionen af regnskabet

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or

error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

• Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

• Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Udtalelse om ledelsesberetningen

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Events after the balance sheet date

There have been no events that materially affect the assessment of this Annual Report 2016 after the balance sheet date and up to today.

Anvendt regnskabspraksis

Årsrapporten er aflagt i overensstemmelse med årsregnskabslovens bestemmelser for Regnskabsklasse C, mellemstor virksomhed.

Financial Statements for 2016 are presented in DKK.

Consolidated financial statements

With reference to section 112 of the Danish Financial Statements Act, no consolidated financial statements are prepared.

Cash Flow Statement

With reference to section 86 (4) of the Danish Financial Statements Act, no cash flow statement is prepared.

Recognition and measurement

Revenues are recognized in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortized cost are recognized. Moreover, all expenses incurred to achieve the earnings for the year are recognized in the income statement, including depreciation, amortization, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Leases

Leasing contracts are considered operating leases. Payments made under operating leases are recognized in the income statement on a straight line basis over the lease term.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognized in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognized directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognized in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Hedge accounting

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions are recognized in retained earnings under equity as regards the effective portion of the hedge. The ineffective portion is recognized in the income statement. If the hedged transaction results in an asset or a liability, the amount deferred in equity is transferred from equity and recognized in the cost of the asset or the liability, respectively. If the hedged transaction results in an income or an expense, the amount deferred in equity to the income statement in the period in which the hedged transaction is recognized. The amount is recognized in the same item as the hedged transaction.

Income Statement

Gross profit/loss

With reference to section 32 of the Danish Financial Statements Act, revenue has not been disclosed in the Annual Report.

Revenue

Revenue from the sale of goods is recognized when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Company.

Contract work in progress (construction contracts) is recognized at the rate of completion, which means that revenue equals the selling price of the work completed for the year (percentage of completion method). This method is applied when total revenues and expenses in respect of the contract and the stage of completion at the balance sheet date can be measured reliably, and it is probable that the economic benefits, including payments, will flow to the Company. The stage of completion is determined on the basis of the ratio between the expenses incurred and the total expected expenses of the contract.

Revenue is measured at the consideration received and is recognized exclusive of VAT and net of discounts relating to sales.

Cost of sales

Cost of sales comprises costs incurred to achieve revenue for the year. Cost comprises raw materials, consumables, direct labor costs and indirect production costs such as maintenance and depreciation, etc., as well as operation, administration and management of factories.

Research and development costs and government grants is included in cost of sales.

Research costs are always recognised in the Income Statement in step with the incurrence of such costs. Development costs include all costs not satisfying capitalization criteria, but incurred in connection with development, prototype construction and development of new business concepts.

Direct and indirect research and development incentives in terms of tax incentives and other grants and subsidy schemes for research and development. Grants are offset against research and development costs. Government grants are recognised when there is reasonable certainty that the conditions for such grants are satisfied and that they will be awarded.

Distribution expenses

Distribution expenses comprise costs in the form of salaries to sales and distribution staff, advertising and marketing expenses as well as operation of motor vehicles, depreciation, etc.

Administration expenses

Administration expenses comprise costs in form of salaries to administration staff and management, office expenses, operation of motor vehicles, depreciations etc.

Income from investments in subsidiaries

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognized in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognized in the income statement, whereas the tax attributable to equity transactions is recognized directly in equity.

The Danish subsidiaries of the Group are liable for tax of the jointly taxed income, etc. of the Group. The total amount appears from the annual report of SKAKO A/S which is the administrative company of the joint taxation. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

Balance Sheet

Intangible assets

Development costs and costs relating to rights deve-loped by the Company are recognized in the income state-ment as costs in the year of acquisition.

Software are measured at cost less accumulated depreciation and less any accumu-lated impairment losses.

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Interest expenses on loans raised directly for financing the construction of property, plant and equipment are recognized in cost over the period of construction. All indirectly attributable borrowing expenses are recognized in the income statement.

Depreciation based on cost reduced by any residual value is calculated on a straight line basis over the expected useful lives of the assets, which are:

Plant and machinery	3-5 years
Other fixtures and fittings, tools and equipment	3-5 years
Leasehold improvements	3-5 years
Software	2-10 years

Depreciation period and residual value are reassessed annually.

Assets costing less than DKK 50,000 are expensed in the year of acquisition.

Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortization and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries

Investments in subsidiaries are recognized and measured under the equity method.

The item in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealized intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements.

Subsidiaries with a negative net asset value are recognized at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognized in provisions.

Inventories

Inventories are measured at the lower of cost under the FIFO method and net realizable value.

The net realizable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses. The net realizable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale, raw materials and consumables equals landed cost.

The cost of finished goods and work in progress comprises the cost of raw materials, consumables and direct labor with addition of indirect production costs. Indirect production costs comprise the cost of indirect materials and labor as well as maintenance and depreciation of the machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management.

Receivables

Receivables are measured in the balance sheet at the lower of amortized cost and net realizable value, which corresponds to nominal value less provisions for bad debts.

Contract work in progress

Contract work in progress regarding service is measured at selling price of the work performed calculated on the basis of the stage of completion. The stage of completion is measured by the proportion that the contract expenses incurred to date bear to the estimated total contract expenses. Where it is probable that total contract expenses will exceed total revenues from a contract, the expected loss is recognized as an expense in the income statement.

Payments received on account are set off against the selling price. The individual contracts are classified as receivables when the net selling price is positive and as liabilities when the net selling price is negative.

Expenses relating to sales work and the winning of contracts are recognized in the income statement as incurred.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Provisions

Provisions are recognized when - in consequence of an event occurred before or on the balance sheet date - the Company has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

Other provisions include warranty obligations in respect of repair work within the warranty period. Provisions are measured and recognized based on experience with guarantee work.

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realized, either by elimination in tax on future earnings or by set off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallize as current tax. Any changes in deferred tax due to changes to tax rates are recognized in the income statement or in equity if the deferred tax relates to items recognized in equity.

Current tax receivables and liabilities

Current tax liabilities and receivables are recognized in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on account taxation scheme are recognized in the income statement in financial income and expenses.

Financial debts

Credit lines to financial institutions and other debts are measured at amortized cost, substantially corresponding to nominal value.
