Statement by Management

The Board of Directors and the Executive Board have today considered and approved the annual report of Radisson Hotels ApS Danmark for the financial year 01.01.2020 - 31.12.2020.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2020 and of the results of its operations for the financial year 01.01.2020 - 31.12.2020.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Independent auditor's report

To the shareholder of Radisson Hotels ApS Danmark

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2020, and of the results of the Company's operations for the financial year 1 January - 31 December 2020 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Radisson Hotels ApS Danmark for the financial year 1 January - 31 December 2020, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's responsibilities for the financial statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Primary activities

The primary activities of Radisson Hotels ApS Danmark comprise possession of investments and intellectual property rights related to the Group's running of hotels as well as management hereof.

The Radisson Hotel Group is one of the fastest growing hotel companies in the world. The hotels in the portfolio are mainly operated under the four key brands Radisson Blu, Park Inn, Radisson Red and Radisson Collection.

The Radisson Hotel Group develops the Radisson Blu and Park Inn by Radisson brands in the EMEA region under a master franchise agreement with Radisson Inc. (former: Carlson Companies) in the United States. Radisson benefits from Radisson Inc's global brand, booking system and other business initiatives. The contract with Radisson Inc is active until 2052, including Radisson AB's extension options.

The Radisson Hotel Group operates a portfolio of brands covering most of the hotel market segments: luxury, lifestyle, full first-class service and mid-market brands. Radisson Blu is a first-class, full-service brand, while Park Inn appeals to the mid-market. Radisson Red is targeting Lifestyle Select, and Radisson Collection is targeting the luxury segment.

The Radisson Hotel Group is focusing on hotel management and operation. Currently, all hotels in the Radisson portfolio are operated either by Radisson under a lease or a management agreement or by a separate operator using one of the Radisson brands under a franchise agreement.

Development in activities and finances

Loss for the year amounts to DKK 1,324,695 thousand.

Results for 2020 were in line with the expected outlook in 2019 if income (loss) from investment in group enterprises are not considered. These are held at cost and internal sales or restructuring therefore significantly impact the net result negatively. The result in 2020 is impacted severely by the COVID-19 pandemic.

Radisson Hotels ApS Danmark and the remaining companies of the Radisson Group are – like many other companies – affected by the trends in the global economy.

When observing the item income (loss) from investments in subsidiaries in the income statement, Management would like to emphasize that subsidiaries are recognised at cost and are written down to the lower of recoverable amount and carrying amount. The majority of the fluctuation in the income (loss) from investments in subsidiaries results from the write-down of the capital contribution to group enterprises with negative equity.

Management would like to emphasize that the equity in the parent company (Radisson Hospitality AB) is at EUR 1,5 Mio only. The value of equity reflected in this Annual report is driven by the fact that subsidiaries are recognized at the lower of cost or 0 (depending on the directly owned subsidiaries equity values) while negative equity values in subsidiaries are not recognized at a lower value than 0 in the annual report of this company.

Outlook

The continuing COVID-19 restrictions in 2021 are expected to have a negative impact on 2021, as the restrictions have still been in force during a large part of the first months of 2021. This results in hotels around the world being closed down for a period in 2021 due to the restrictions which affects the Company's revenue.

The results for 2021 will continuously be impacted by COVID-19 and the result for 2021 is expected to be at the same level as 2020.

Particular risks

The key risk management objectives of Radisson Hotels ApS Danmark can be summarised as follows:

- Ensure that the risks and benefits of new investments and contingent liabilities are in line with the financial objectives of the Radisson Group.
- Reduce cyclical risks through brand diversity, geographic representation and by ensuring a mix of leased, managed and franchised hotels.
- Review and assess the insurance programmes of the Radisson Group on an ongoing basis.
- Carefully evaluate investments in high-risk areas to match these with premium returns on investments.

Operating risks

Radisson Hotels ApS Danmark is subject to the operating risks common to the hotel industry, including:

- Changes in general economic conditions
- Changes in travel patterns and demand
- Cyclical over-supply of hotels
- The financial position of third-party property owners and franchisees
- Typical long-term leases and management contracts with guarantees
- Impact by local legislation in connection with the COVID-19 outbreak

Financial exposure

Since the Company is financed through intercompany loans, the Company's risks from financing activities are limited.

Currency exposure

Exposure to foreign currency fluctuations is mainly related to fluctuations in USD in connection with the settlement of royalties to Carlson. Credit risks related to financial assets equal the values recognised in the balance sheet.

Credit risks

Credit risks related to financial assets equal the values recognised in the balance sheet.

Cash flow risks

It is the policy of the Radisson Group that capital injections and placement of excess liquidity are managed centrally. At the same time, the Group has decided on objectives for liquidity reserves, such as excess cash and credit facilities, that are available to the Group at any time.

Group credit facilities

The company is dependent on credit facilities being made available by other group companies. These credit facilities are subject to reoccurring renewal.

Intellectual capital resources

The annual employee satisfaction survey looks at the employees' attitude to and perceptions of working conditions, career opportunities and management performance in the Radisson Group.

With the Radisson Hotel Group, training has a two-fold purpose: career development and personal development. The School for Management Training continued to attract members from all brands in 2020. Further, the Radisson Hotel Group uses tailored eLearning resources to supplement the school's face-to-face forum.

Statutory report on corporate social responsibility

Radisson Hotels ApS Danmark does not have a separate CSR policy developed and adjusted to the Company's operational conditions. The Radisson Group has by its "Responsible Business" policy, applied to all consolidated companies, an internal code of practice which must be complied with as regards CSR.

The three basic principles of the "Responsible Business" programme are:

- Taking responsibility for the health and safety of employees and guests
- Respecting social and ethical issues in the Company as well as in the community
- Reducing our negative impact on the environment

The full "Responsible Business" efforts are described here: <https://media.radissonhotels.net/image/responsible-business--corporate-use-only/businesscenter/16256-142211-m22829151.pdf>

Statutory report on the underrepresented gender

Radisson Group has a policy on diversity and its target figure is to always keep the minimum share of women in the Board of Directors at 33%. At 31.12.2020 there is only one female board member and therefore the target figures have not been met. The target figures has been delayed due to the outbreak and spread of COVID-19, but the target figures are expected to be met within 2 years. The Board members consist of key management personnel in Radisson Group, therefore there is limited possibility for replacement.

With reference to section 99 b of the Danish Financial Statements Act, Radisson Hotels ApS Danmark employs less than 50 employees and therefore has no obligation to report further disclosures.

23 Contingent liabilities

Disputes

The Radisson Hotel Group operates in a number of countries around the world and is always involved in several complex projects and business relationships in which professional disputes on various issues may arise. Most times these situations are resolved through negotiations and discussions. In some rare situations, these disputes may lead to major disagreements or claims of violation of the law. Provisions for claims due to known disputes are recorded whenever there is a situation in which it is more likely than not that Radisson will have an obligation to settle the dispute and in which a reliable estimate can be made regarding the outcome of such dispute. Currently no provisions for claims or disputes are recognized.

Joint taxation

The Company is jointly and severally liable with the jointly registered group enterprises for the total VAT liability.

The Company is jointly taxed with all Danish subsidiaries of the Radisson Group and other Danish companies controlled by Jin Jiang International Holdings Co., Ltd. The Company has unlimited joint and several liability for Danish corporation taxes and withholding taxes on dividends, interest and royalties under the joint taxation scheme.

Guarantees

In the management contracts for a numbers of hotels, Radisson Hotels ApS Danmark and the subsidiaries guarantee the hotel owners a minimum amount of cash flow annually. For some of the contracts the guarantee is limited to a maximum amount for the duration of the contract and a maximum amount per year.

Radisson Hotels ApS Danmark has guaranteed a number of contractual obligations of the lease agreements and the management agreements entered into by other group enterprises, i.a. lease of the Group's hotels and performance guarantees as part of the management agreements with the Group's hotels in several countries.

The Company has also provided guarantees to a number of trading partners of and suppliers to the Group's operating companies.

Other

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date, or the rate at the balance sheet date, are recognised in the income statement as financial income or financial expenses. Property, plant and equipment, intangible assets, inventories and other non-monetary assets that have been

purchased in foreign currencies are translated using historical rates.

Derivative financial instruments

On initial recognition in the balance sheet, derivative financial instruments are measured at cost and subsequently at fair value. Derivative financial instruments are recognised under other receivables or other payables.

Changes in the fair value of derivative financial instruments classified as and complying with the requirements for hedging future transactions are recognised directly in equity. When the hedged transactions are realised, the accumulated changes are recognised as part of cost of the relevant financial statement items.

Balance sheet

Goodwill

Goodwill is amortised straight-line over its estimated useful life which is fixed based on the experience gained by Management for each business area. The amortisation period is usually five years, however, in certain cases it may be up to 20 years for strategically acquired enterprises with a strong market position and a long-term earnings profile if the longer amortisation period is considered to give a better reflection of the benefit from the relevant resources.

The useful life is estimated at 20 years, which equals the contractual period of the related hotel.

Goodwill is written down to the lower of recoverable amount and carrying amount.

Intellectual property rights etc

Intellectual property rights etc comprise development projects completed and in progress with related Intellectual property rights, acquired intellectual property rights, prepayments for intangible assets and acquired intangible assets.

The basis of amortisation is cost. Straight-line amortisation over five years is made on the basis of the useful lives of the assets.

Development projects on clearly defined and identifiable products and processes, for which the technical rate of utilisation, adequate resources and a potential future market or development opportunity in the enterprise can be established, and where the intention is to manufacture, market or apply the product or process in question, are recognised as intangible assets. Other development costs are recognised as costs in the income statement as incurred.

The cost of development projects comprises costs such as salaries and amortisation that are directly and indirectly attributable to the development projects.

Property, plant and equipment

Land and buildings, other fixtures and fittings, tools and equipment as well as leasehold improvements are

measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.

Cost comprises the acquisition price, costs directly attributable to the acquisition and preparation costs of the asset until the time when it is ready to be put into operation.

The basis of depreciation is cost less estimated residual value after the end of useful life. Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

Buildings	50 years
Other fixtures and fittings, tools and equipment	3-10 years

For leasehold improvements and assets held under finance leases, the depreciation period cannot exceed the contract period.

Estimated useful lives and residual values are reassessed annually.

Property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

Investments in group enterprises

Investments in group enterprises are measured at cost and are written down to the lower of recoverable amount and carrying amount.

If the equity value is negative, the amount is recognised under provisions if a legal or constructive obligation exists and a loss is expected.

Investments in associates

Investments in associates are measured at cost and are written down to the lower of recoverable amount and carrying amount.

If the equity value is negative, the amount is recognised under provisions if a legal or constructive obligation exists and a loss is expected.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value, less writedowns for bad and doubtful debts.

Deferred tax

Deferred tax is recognised on all temporary differences between the carrying amount and the tax-based value of assets and liabilities, for which the tax-based value is calculated based on the planned use of each asset.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets.

Prepayments

Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Cash

Cash comprises cash in hand and bank deposits.

Dividend

Dividend is recognised as a liability at the time of adoption at the general meeting. Proposed dividend for the financial year is disclosed as a separate item in equity.
