Management's statement

Today the Board of Directors and the Executive Board have considered and approved the Annual Report of NIRAS Gruppen A/S for the financial year 1 January to 31 December 2019.

The Annual Report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements and the consolidated financial statements give a true and fair view of the assets, liabilities and financial position of the Group and the Company at 31 December 2019 and of the financial performance of the Company and the Group and the consolidated cash flows for 2019.

We recommend that the Annual Report be approved by the Annual General Meeting.

Independent auditor's report

To the shareholder of NIRAS Gruppen A/S

Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2019, and of the results of the Group's and the Parent Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2019 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of NIRAS Gruppen A/S for the financial year 1 January - 31 December 2019, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("financial statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement in Management's Review.

Independent auditor's report (continued)

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Consolidated Financial Statements and Parent Company Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report (continued)

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

*As of 1 January 2017, the Company merged with Alectia A/S. The merger was effected using the book value method. In consequence, the comparative figures for 2015-2016 have not been restated.

The financial ratios are calculated in accordance with the Danish Finance Society's recommendations and guidelines. For definitions, see the accounting policies.

Management's review

Principal activity

The Company is the holding company of a string of companies offering engineering consultancy services from offices in Denmark, Sweden, Norway, Finland, the UK, Germany, the Netherlands, Serbia and Poland as well as a number of African, South-East Asian and Latin American countries.

Development during the financial year

The Company's own production increased by DKK 31.6 million to DKK 1,774 million, up by 2%, while operating profit (EBIT) grew to DKK 56.2 million, up by DKK 9.4 million or 20%, reflecting efficiency improvements achieved during the year. Overall, the construction-related units recorded lower revenue and operating profit in 2019 following very satisfactory performance in 2018. Meanwhile, the infrastructure sector recorded a small decline in revenue but delivered very satisfactory operating profit. The remaining sectors recorded an unchanged or small increase in operating activities and, hence, an improvement of operating profit. The Danish activities recorded unchanged revenue and net profit compared to the previous year while the international units recorded a small increase. The Swedish activities made a turnaround, delivering a significantly improved operating profit of DKK 4.2 million compared to a loss last year.

Profit before tax increased by DKK 9.9 million to DKK 56.8 million. Profit after tax came to DKK 42.7 million, up from DKK 33.3 million in 2018.

In view of the decline recorded by the construction-related units, the biggest sector at NIRAS, Management considers the financial results to be satisfactory. Efforts continued to be made in 2019 to expand the activities in Norway, Sweden and the UK and the efforts were deemed successful. Additional investments were made in existing group enterprises in 2019. Overall, activities outside Denmark made a positive contribution to the Group's financial performance, a trend that is expected to continue into 2020.

Uncertainty in connection with recognition and measurement

Contract work in progress is measured including estimates of the stage of completion. In the course of a project, positive or negative variances may occur compared with the estimates applied.

Goodwill impairment test is based on estimated future cash flows, discount rates and growth rates. Such estimates are subject to uncertainty and changes may have a major impact.

No significant uncertainties other than those described above exist in respect of the Annual Report.

Exceptional circumstances

No exceptional circumstances have affected the Annual Report.

Management's review (continued)

Special risks

The Group uses a risk management system to systematically identify and implement measures to prevent particular risks relating to projects and business activities in general.

Operational risks:

The key operational risks of the Group relate to the ability to maintain a high level of activity and fair earnings on the individual projects.

Financial risks:

As a consequence of its operating activities, the Group is exposed to exchange rate and interest rate fluctuations, with the most significant exchange rate, interest rate and credit risks being attributable to commercial factors.

Exchange-rate risks:

The Group seeks to minimise exchange-rate risks by issuing invoices and paying costs in the same currency. However, as this is not always possible, operational exchange-rate risks exist.

No forward exchange contracts were in effect at the end of the financial period.

Liquidity:

It is Group policy to maximise cash resources by receiving prepayments, etc., where possible.

Knowledge resources

The combination of professional skills and the ability to translate knowledge into relevant solutions are key to the Company's value creation and innovative performance as well as to the continued development of the individual employees. Targeted efforts are made to ensure accumulation and internal sharing of both existing and new knowledge for the benefit of the individual projects, the well-being of employees and, ultimately, customer satisfaction.

We continue our commitment to attract, retain and develop highly skilled employees and to invest in their professional and personal development. Overall, our employees are highly skilled, and employees holding an university degree longer than 5 years make up 49% of our staff.

Management's review (continued)

Statement on corporate social responsibility and sustainability

The Group is a signatory to and supports the UN Global Compact and is committed to corporate social responsibility in connection with the execution of projects. Moreover, corporate social responsibility is a key focus area of our HR policies. In accordance with section 99a(7) of the Danish Financial Statements Act, reference is made to the UN Global Compact – NIRAS' Communication on Progress 2019 for a more detailed description. The Communication on Progress is available on the corporate website at <http://www.niras.com/about-niras/csr/global-compact.aspx>

The Group is also committed to its ethical responsibility as regards both ordinary business ethics and anti-corruption measures. The Group's policies in this field appear from NIRAS' Business Integrity and Ethics Policy which forms an integral part of NIRAS' Integrity Management System, together with specific procedures. All employees are required to comply with the Group's policies and to follow the procedures outlined in the management system. The Integrity Management System and the Business Integrity and Ethics Policy are in compliance with the international anti-corruption measures defined by the OECD, FIDIC, Transparency International and the United Nations.

In addition to a description of NIRAS' Ethics Policy and the related procedures, NIRAS' Integrity Management System provides due diligence procedures for the screening of partners and subcontractors as well as templates and declarations to be filled in and signed by partners and subcontractors. The management system also contains a whistleblowing function and an online anti-corruption tutorial. All executive officers, heads of business units, new employees and existing employees working outside Western Europe are required to complete the tutorial.

The Group's ethical policies are united in a statement signed by the Chairman of the Board of Directors and the CEO. The statement and the manual for NIRAS' Integrity Management System are available on the corporate websites, including at <https://www.niras.com/about-niras/corporate-social-responsibility/>

NIRAS' Integrity Management System is regularly reviewed and updated, most recently in December 2019 when, for instance, NIRAS' Principles on Safeguarding were elaborated and uploaded to the corporate website and when NIRAS' quality control, including anti-corruption procedures within financial management, was strengthened.

Further, two new employees have been added to NIRAS' compliance unit. The unit is divided into two sub-units dealing with compliance issues inside and outside the Nordic countries, respectively.

In 2019, we continued the development and expansion of NIRAS' anti-corruption training programmes. At the end of 2019, about 500 employees had been enrolled as participants.

There is no doubt that NIRAS' employees are much more observant of corruption issues now than in the past, resulting in an increased number of reported cases for further investigation. We did not experience any internal violations of our Business Integrity and Ethics Policy in 2019.

If there are indications to suspect that corruption has taken or is taking place in publicly funded or donor-funded projects, NIRAS is obliged to report such incidents to the anti-corruption/fraud office of the respective donor or public organisation, who then initiates its own investigation if the suspicion is

Management's review (continued)

well-founded. In 2019, NIRAS was approached three times by government agencies asking for bribes. NIRAS immediately reported the matters to the donor organisations funding the relevant projects.

At NIRAS, we strive to prevent UN human rights violations, both in the choice of projects undertaken by the Company, the execution of the project and the choice of any partners and subcontractors. Our Ethics Policy ensures that all projects are screened for any human rights issues before the Company undertakes to perform them. By being a signatory to the UN Global Compact, the Company is committed to actively promoting an understanding of the importance of human rights compliance. The Company's human rights efforts are detailed in its annual report, the *Communication on Progress*, to the UN Global Compact.

The Group is concerned about the environment and continuously strives to reduce the environmental footprint of the Company's own operating and consultancy activities. The UN's 17 Sustainable Development Goals (SDGs) have been integrated into NIRAS' strategies and services. The Company prepares annual climate accounts, which are available on the corporate website at:
<https://www.niras.com/about-niras/corporate-social-responsibility/>

Quality management systems

The Group operates a quality management system to ensure the use of timely and relevant skills and to enable the delivery of high-quality services. The Company's quality management system can be certified according to the ISO 9001:2000 standard, and part of the business has been certified.

Research and development activities

The Group focuses on continuous development and innovation for the purpose of promoting NIRAS' position within the various areas of expertise.

In keeping with this aim, the Group regularly takes on PhD students who work with specific issues and development projects.

Management's review (continued)

Representation of underrepresented gender

The current composition of the Board of Directors is 33% women and 67% men. The target is at least one woman on the Board in 2022. Accordingly, with the current composition, the target has been achieved.

The parent company on an isolated basis has less than 50 employees. Consequently, the politics and goals for the representation of the underrepresented gender on other management levels is not disclosed. We refer to the annual report for NIRAS A/S for a description of the politics and goals for NIRAs A/S.

Treasury shares

At 31 December 2019, the Company held treasury shares of a nominal value of 1,763,000 at a value of DKK 25,028,000. The holding accounts for 7% of the Company's share capital.

In 2019, the Company sold equity interests of a nominal value of 462,000 at a price of DKK 6,113,000.

The holding of treasury shares was acquired as security for the option scheme for the Company's executive officers.

Outlook

Additional acquisitions are expected to be made in 2020 and, together with a continued focus on productivity improvements across the Group, this is expected to contribute to improved profit performance compared to 2019.

In March 2020, the general situation in relation to COVID-19 has deteriorated, which will inevitably have a negative impact on NIRAS's earnings in 2020. Although many customers have indicated that they maintain ongoing projects, we expect the order intake to decrease as a result of the uncertainty, caused by the deterioration. We are closely monitoring the development, but it is too early to determine the effect on order intake and thus sales for the rest of 2020.

No other events affecting the assessment of the Annual Report have occurred after 31 December 2019.

Accounting policies

In general

The Annual Report of NIRAS Gruppen A/S has been prepared in accordance with the provisions of the Danish Financial Statements Act for reporting class C enterprises (large).

The accounting policies are unchanged from last year.

The consolidated financial statements and the financial statements are presented in thousands of Danish kroner (DKK '000).

Consolidated financial statements

The consolidated financial statements include NIRAS Gruppen A/S (the Parent Company) and enterprises in which the Parent Company holds the majority of the voting rights, whether directly or indirectly, or has a controlling interest by way of shares or otherwise controls the enterprise. Enterprises in which the Group holds between 20% and 50% of the voting rights and exercises significant influence, but does not exercise control, are considered associates.

Consolidation principles:

The consolidated financial statements are prepared on the basis of the financial statements of NIRAS Gruppen A/S and its subsidiaries. The consolidated financial statements are prepared by combining items of a uniform nature. On consolidation, intercompany income and expenses, intercompany balances as well as gains and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation are prepared in accordance with the Group's accounting policies.

On consolidation, items of a uniform nature are combined. Intercompany income and expenses, shareholdings, dividends and balances as well as realised and unrealised intercompany gains and losses on transactions between the consolidated enterprises are eliminated.

The Parent Company's investments in consolidated subsidiaries are eliminated by the Parent Company's share of the equity value of the subsidiaries determined at the time of consolidation.

Acquisitions:

On the acquisition of subsidiaries, the difference between cost and the equity value of the enterprise acquired is determined at the date of acquisition after adjustment of the individual assets and liabilities to fair value (the acquisition method). Cost comprises the fair value of the consideration paid as well as expenses for advisers, etc., directly related to the acquisition. Any positive balance is recognised in the balance sheet under intangible assets as goodwill and is amortised to the income statement on a straight-line basis over the estimated useful life. Any negative balance is recognised in the income statement at the date of acquisition.

Accounting policies (continued)

Positive and negative balances from enterprises acquired, which emerge as a result of changes in the recognition and measurement of net assets, are adjusted up to 12 months after the date of acquisition if any knowledge of matters existing at the date of acquisition emerges. Such adjustments are also reflected in the value of goodwill or negative goodwill, including amortisation already charged. In addition, the change in contingent consideration in the value of goodwill or negative goodwill is also adjusted.

Goodwill amortisation is recognised under depreciation and amortisation.

Minority interests

Minority interests are part of consolidated equity. Upon distribution, net profit or loss is broken down on the share attributable to minority interests and the share attributable to the shareholders of the Parent Company. Minority interests are recognised at the carrying amounts of the assets and liabilities acquired at the time of the acquisition of subsidiaries.

In case of subsequent changes in minority interests, where the Group retains control of the subsidiary, consideration is recognised directly in equity.

Foreign currency translation

Foreign currency transactions are translated at the exchange rate at the date of the transaction. Gains and losses resulting from movements in the exchange rate at the date of the transaction and the exchange rate at the payment date are recognised in the income statement as financial income and expenses.

Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rate at the balance sheet date. Exchange rate differences between the exchange rate at the balance sheet date and the exchange rate at the date of the transaction are recognised in the income statement as financial income and expenses, see also the paragraph on hedge accounting.

The income statements of foreign subsidiaries and associates which are independent entities are translated at the exchange rate at the date of transaction or an approximate average exchange rate. Balance sheet items are translated at the exchange rate at the balance sheet date. Foreign currency translation adjustments resulting from the translation of equity at the beginning of the year and foreign currency translation adjustments resulting from the translation of the income statement at the exchange rate at the balance sheet date are recognised directly in equity.

The income statements of integrated foreign entities are translated at the exchange rate at the date of the transaction or an approximate average exchange rate, while items derived from non-monetary balance sheet items are translated at the exchange rates at the date of the transaction of the underlying assets or liabilities. Monetary balance sheet items are translated at the exchange rate at the balance sheet date, while non-monetary balance sheet items are translated at the exchange rate at the date of the transaction. Foreign currency translation adjustments resulting from the translation are recognised in the income statement as financial income and expenses.

Accounting policies (continued)

Gross revenue

Contract work in progress is recognised based on the stage of completion, entailing that revenue corresponds to the selling price of the work performed during the year (percentage of completion method). This method is used when all income and expenses relating to the contract and the stage of completion at the balance sheet date can be reliably determined, and it is probable that economic benefits, including payments, will flow to the company.

Other external expenses

Other external expenses comprise advertising, administration, rent of leasehold, provisions for bad debt other leases etc.

Staff expenses

Staff expenses comprise wages and salaries as well as other payroll expenses.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise the year's amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, realised and unrealised foreign currency translation adjustments, market value adjustment of securities and surcharges and allowances under the tax prepayment scheme.

Income from subsidiaries

The Parent Company's share of the profits or losses of enterprises is recognised in the income statement after elimination of unrealised intercompany profits or losses, with the deduction or addition of amortisation of consolidated goodwill.

Tax on profit or loss for the year

Tax on profit or loss for the year, consisting of current tax for the year and deferred tax for the year, is recognised in the income statement by the portion attributable to profit or loss for the year, and directly in equity by the portion attributable to equity transactions. Tax recognised in the income statement is classified as either tax on income or loss from ordinary activities or other taxes.

Any change in deferred tax as a result of changes in tax rates is recognised in the income statement.

Accounting policies (continued)

The Company is jointly taxed with fully owned Danish subsidiaries. The tax effect of the joint taxation with subsidiaries is allocated to profitable as well as loss-making enterprises in proportion to their taxable income (fully allocated with a refund for tax losses). Jointly taxed entities are included in the joint taxation scheme.

Goodwill and group goodwill

Goodwill is amortised on a straight-line basis over the estimated economic life determined on the basis of Management's experience in the relevant business areas. The amortisation period is 5-20 years and is based on the Company's experience in and assessment of the useful life of the individual investment. Acquired enterprises with strong market positions and long-term earnings profiles have the longest amortisation period.

Patents, trademarks, know-how, licences and software

Intellectual property rights acquired in the form of patents, trademarks, know-how and licences are measured at cost less accumulated amortisation and impairment losses. Patents are amortised over the remaining patent period, while trademarks and knowhow are amortised over a maximum of 10 years. Licences are amortised over the term of the licence, however not exceeding 20 years. Amortisation is made on a straight-line basis over the amortisation period.

Software is measured at cost less accumulated amortisation and impairment losses over a maximum period of 5 years. Amortisation is made on a straight-line basis over the amortisation period.

Where the recoverable amount is lower than the carrying amount, patents and licences are written down to the recoverable amount.

Gains and losses resulting from the sale of patents and licences, etc., are determined as the difference between the selling prices less selling costs and the carrying amounts at the time of sale. Gains or losses are recognised in the income statement under project costs when they relate to adjustments of amortisation previously made or under operating income when the selling price exceeds the original cost.

Accounting policies (continued)

Property, plant and equipment

Property, plant and equipment are measured at cost plus revaluation less accumulated depreciation and impairment losses.

Cost comprises purchase price and any costs directly attributable to the acquisition plus costs for preparing the asset until the date when the asset is available for use.

The basis of depreciation is calculated on the basis of cost less estimated residual value after the end of useful life. Depreciation is calculated using the straight-line method over the following estimated useful lives of the individual assets:

Land and buildings	100 years
Leasehold improvements	5-10 years or over the actual lease term
Operating equipment, fixtures and fixtures	3-5 years

Amortisation period and residual value are revalued annually.

Gains and losses on disposal of property, plant and equipment are determined as the difference between the selling prices less selling costs and the carrying amount at the time of sale. Gains or losses are recognised in the income statement as amortisation and impairment losses or under other operating expenses when the selling price exceeds the original cost.

Impairment losses relating to non-current assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed annually to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

Where there is evidence of impairment, an impairment test is conducted to determine whether the recoverable amount of the asset is lower than the carrying amount. In that case, the asset is written down to the lower recoverable amount.

Investments in subsidiaries and associates

Investments in subsidiaries and associates are recognised and measured according to the equity method, entailing that investments are measured at the proportionate share of the equity value of the enterprises, see above under consolidated financial statements, with the addition or deduction of the residual value of positive goodwill and the deduction or addition of unrealised intercompany profits and losses.

Accounting policies (continued)

Investments in subsidiaries and associates (continued)

Subsidiaries and associates with negative equity value are measured at DKK 0, and any receivables from those enterprises are written down by the Parent Company's share of the negative equity value to the extent that the amounts are deemed to be uncollectible. If the negative equity value exceeds the receivable, the residual amount is recognised under provisions for liabilities to the extent that the Parent Company has a legal or constructive obligation to cover the liabilities of the relevant enterprise.

The total net revaluation of investments in subsidiaries and associates is transferred to the reserve for net revaluation of investments to the extent that the carrying amounts exceed the cost.

On acquisition of subsidiaries, the purchase method is applied, see the description above under consolidated financial statements

Receivables

Receivables are measured at amortised cost, usually equivalent to nominal value less write-down for expected losses.

Contract work in progress

Contract work in progress is measured at the selling price of the work performed based on the stage of completion. The stage of completion is calculated based on the share of costs incurred in proportion to the estimated total costs of the individual contract. When it is probable that the total contract costs will exceed the total contract revenue, the expected loss is recognised in the income statement.

Where it is not possible to determine a reliable selling price, the selling price is measured at the lower of costs incurred and net realisable value.

Prepayments and payments received on account are deducted from the selling price. The individual contracts are classified as receivables in case of a positive net value and as liabilities in case of a negative net value.

Costs related to sales work and contract negotiations are recognised in the income statement as incurred.

Prepayments and accrued income (assets)

Prepayments and accrued income recognised under assets comprise prepaid expenses incurred concerning subsequent financial years. Prepayments and accrued income are measured at amortised cost, usually equivalent to nominal value.

Accounting policies (continued)

Securities

Securities and equity investments recognised as current assets comprise listed bonds and shares, which are measured at fair value at the balance sheet date. Fair value is calculated using the most recently quoted selling price.

Equity

Dividends are recognised as a liability at the time of adoption by the general meeting. Dividends proposed for the financial year are recognised as a separate item under equity.

Treasury shares

Purchases and sales of treasury shares are recognised directly in equity. A capital reduction by way of cancellation of treasury shares reduces the share capital by an amount corresponding to the nominal value of the shares and increases retained earnings. Dividends on treasury shares are recognised directly in equity as retained earnings.

Provision

Provisions are recognised when the Group has a legal or constructive obligation as a result of an event occurring on or before the balance sheet date, and it is probable that economic benefits will be required to settle the obligation.

The Group has recognised costs for warranty commitments for cases involving warranty claims. The costs comprise insurance policy excess and warranty commitments for cases in which the Group expects to have to pay costs of remediation, etc.

Deferred tax assets and liabilities

Deferred tax is recognised for all temporary differences between the carrying amounts and the tax base of assets and liabilities. However, deferred tax is not recognised for temporary differences relating to the amortisation of goodwill disallowed for tax purposes and other items if, except in the case of acquisitions, they arose at the date of acquisition without any impact on net profit or loss or taxable income.

Deferred tax is measured on the basis of the tax rules and tax rates applicable when the deferred tax becomes current tax according to the legislation in force at the balance sheet date. In cases where the tax base can be determined under alternative taxation rules, deferred tax is measured on the basis of the intended use of the asset or settlement of the obligation.

Accounting policies (continued)

Deferred tax assets, including the tax base of tax losses allowed for carryforward, are measured at their anticipated net realisable value, either by elimination in tax on future earnings or by offsetting against deferred tax liabilities.

Deferred tax assets and liabilities are offset within the same legal tax entity.

Current tax receivables and liabilities

Current tax receivables and liabilities are recognised in the balance sheet as calculated tax on taxable income for the year, adjusted for tax on taxable income for previous years and tax paid on account. Surcharges and allowances under the tax prepayment scheme are recognised in the income statement under financial income and expenses.

Financial liabilities

Other liabilities are measured at amortised cost, which is essentially equivalent to nominal value.

Cash flow statement

The consolidated cash flow statement is presented according to the indirect method and shows cash flows from operating, investing and financing activities as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities are determined as operating profit adjusted for non-cash operating items, changes in working capital and income tax paid.

Cash flows from investing activities include payments relating to the acquisition and sale of enterprises and activities and purchases and sales of intangible assets, property, plant and equipment and investments. The cash flow statement includes cash flows relating to acquisitions from the date of acquisition and cash flows relating to disposals are recognised up to the time of sale.

Cash flows from financing activities include changes in the size or composition of the consolidated share capital and the related costs as well as the raising of loans, repayments on interest-bearing debt and distribution of dividends to shareholders.

Cash and cash equivalents include cash at bank and in hand as well as short-term securities with an insignificant price risk less short-term bank debt.

The cash flow statement cannot be derived solely from the published financial statements.

Accounting policies (continued)

Segment information

Information is provided for geographical markets (primary segment) and business segments (secondary segment). The segment information follows the Group's accounting policies and internal financial control.

Incentive schemes

The value of stock option schemes for the Executive Board and other executive officers is not recognised in the income statement. The most important details of the schemes are disclosed in the notes.

Financial highlights

Key figures and financial ratios are calculated in accordance with the Danish Finance Society's *Recommendations & Financial Ratios 2015*.

Accounting policies (continued)

Definition of financial ratios

EBITA/FTE	=	<u>Operating profit/(-loss) excl. goodwill amortisation x 100</u> Number of employees, average
EBITA margin	=	<u>Operating profit/(-loss) excl. goodwill amortisation x 100</u> Value of own production
EBIDA margin	=	<u>Value of own production excl. oth. external- and staff expenses x 100</u> Value of own production
EBIT margin	=	<u>Operating profit/(-loss) x 100</u> Value of own production
Current ratio	=	<u>Current assets</u> Current liabilities
Return on equity	=	<u>Net profit/(-loss) for the year x 100</u> Average equity
Equity ratio	=	<u>Equity x 100</u> Balance sheet total

EBITA (Earnings Before Interest, Tax and Amortisation) is defined as profit or loss from operating activities with the addition of goodwill amortisation for the year.

EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) is defined as the value of own production less other external expenses and staff expenses.

EBIT (Earnings before interest and Tax) is defined as operating profit.

Net working capital is defined as current assets less current liabilities.

22. Recourse guarantee commitments and contingent liabilities

The Parent company and jointly registered Group enterprises are jointly and severally liable for the total VAT liability.

The VAT liability of the Parent company amounts to

The Company and the other Group enterprises are jointly and severally liable for tax payable on the Group's income, etc., subject to joint taxation. The total income tax payable appears from the annual report of NIRAS Gruppen A/S, which acts as the administration company of the joint taxation scheme. Any subsequent adjustments to income taxes may increase the liability of the Company.

The Parent company has issued statements of support for some of its subsidiaries. According to the statements, the Parent company guarantees that the subsidiaries will have the required liquidity at its disposal up to 31 December 2020.

The Group is a stakeholder in the owners' association 'Hotel Tannishus' (title No. 38-i), Tannishus, Denmark.

The Group has a 1/73 share.

The Group makes a provision under Other provisions corresponding to the expected insurance excess for projects in which there is a risk of exposure to liability. In addition, the Group is involved in a few legal proceedings. The outcome of the legal proceedings is not expected to have any significant impact on the Group's financial position.

The Group regularly enters into partnerships and joint ventures subject to joint and several liability. The Group is a partner in 46 joint ventures with a total contract amount of DKK 723,076,000. The Group owns different shares in the joint ventures.

The Group regularly enters into partnerships and joint ventures subject to joint and several liability. According to Management, these obligations are insignificant.

In accordance with section 98C(3) of the Danish Financial Statements Act, the Company has omitted to describe transactions with related parties.

Transactions with related parties have been made on market terms.

28. Shareholder information

The share capital is owned by NIRAS ALECTIA Fonden, Allerød, Denmark, and the employees of Group enterprises. No employee owns more than 5%.

29. Subsequent events

The consequences of Covid-19 are expected to have a significant impact on the world economy. The consequences of Covid-19 are considered an event arising after the balance sheet date of December 31, 2019, and constitute a non-regulatory event.

Although many customers have indicated that they maintain ongoing projects, there is a risk of Covid-19 having negative consequences for NIRAS's revenue and earnings in 2020. Management is closely monitoring the development, but it is too early to determine whether and how Covid-19 will affect revenue and earnings in 2020.

No other events affecting the assessment of the annual report have occurred after 31 December 2019.
