Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Baltic Shipping Company A/S for the financial year 1 January - 31 December 2021.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the financial position at 31 December 2021 of the Company and of the results of the Company operations for 2021.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditor's Report

To the Shareholder of Baltic Shipping Company A/S

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2021 and of the results of the Company's operations for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Baltic Shipping Company A/S for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("the Financial Statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstate-

Independent Auditor's Report

ment, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events

Independent Auditor's Report

in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's Review

The principal activities of the company

Baltic Shipping Company A/S is a wholly owned subsidiary of Baltic Holding Hundested ApS. The company was established in 1950 and has since been transporting bulk and project cargo primarily in the Baltic Sea, Northern Europe to south of Spain.

Baltic Shipping Company is specialized in Commercial Ship Management, Competitive Chartering, Ships Agency, handling and transporting Project Cargo and stevedoring.

At the end of 2021 Baltic Shipping Company has a fleet of 36 dry cargo vessels in the range from 1,200-5,000 dwt in commercial management.

Market overview and expected development

2021 marked a very strong year for the shipping industry general and the same applies for Baltic Shipping Company. In a strong competitive market, the revenue has increased, and we were able to optimize our fleet and expand our geographical scope and hence provide the best possible results for both vessel and freight owners.

2022 has started on a strong note and we are expecting the market and development of Baltic Shipping Company to continue the positive development.

The current crisis in Ukraine has the outmost attention from the management. Every angle from sanctions to consequential market development are constantly vetted, and we are in very close dialogue with all our business partners and advisors. We do however, despite the opaque situation and the seriousness of the crisis, not foresee any reason to adjust our expectations to the development or our forecast for 2022.

Management's Review

Development in activities and financial matters

The total Revenue for 2021 generated in BSC, including the revenue generated by the vessels in BSC commercial management, amounts to DKK 538.0 million, which is an increase of 5.2% compared to 2020. In BSC only income from projects, stevedoring, agency and commission received for commercial management is recognized as revenue, why the reported revenue in the financial statements amounts to DKK 106.3 million compared to 83.6 million in 2020.

The result before tax is DKK 82.0 million compared to DKK 24.3 million in 2020.

The Management consider the result very satisfactory and significantly above expectations.

The number of people employed by Baltic Shipping Company has decreased from an average of 33 employees in 2020 to an average of 32 employees in 2021.

Our fleet in Commercial Management has grown from an average of 35 vessels in 2020 to an average of 37 vessels during 2021. The market for coaster trading in the Baltic sea has since October 2020 returned to being a very strong market and the entire year 2021 has been outstanding both in terms of amount of freight, freight rates and development opportunities in the market. This remarkable tendency is expected to continue in the foreseeable future. The activity for Baltic Shipping Company has in line with the development in the market grown significantly both in terms of filling own and foreign tonnage.

Our Agency and Stevedoring activities have also performed very well and grown significantly in 2021.

Our customer base has been additionally strengthened in 2021 and we continue having a strong relationship with our customers based on a competitive service, which is built on long lasting cooperation and partnerships.

We are expecting the market to continue the strong performance and expect an increase in the net result in 2022.

Management's Review

Internal Risk management

We are continuously working on improving our internal risk management and quality standards.

The management have identified the following as primary risk areas:

- 1) Safety during and around our stevedoring operations
- 2) The environmental impact of our core business area
- 3) Employee satisfaction
- 4) Integrity and ethic throughout the entire supply chain

To further strengthen our quality management system we are ISO9001 certified. The standard is incorporated in and by the whole organization. The general work with and knowledge about all the procedures, supports awareness, focus on quality assurance and correct start-up and continuous review of each project, promoting safety and preventive actions combined with ensuring the expected profitability and customer satisfaction.

To stress the importance of high quality standards in the sea transport for feeds, we were re-certified in GMP+ B4 and B3 for sea transport.

Management's Review

We all have a responsibility for sustainability and Social responsibility

In Baltic Shipping Company we are placing this responsibility high on the agenda and have increased focus on 8 of the 17 global goals for sustainable development.

The action comprises strategies and measures against climate changes as well as awareness-raising on climate changes. In Baltic Shipping Company we do this by measuring and highlighting the CO₂-emmission of each freight carried by a BSC vessel - and by comparing the CO₂-emmission of the same cargo being moved by trucks and highlighting this to our customers in each invoice, we jointly support sustainable freight. The impact on the environment is significant as each vessel load compares to approximately 100 truck loads, depending on the vessel size.

As a company, we have an ethical responsibility for our people, our surroundings and the world in which we live – including safety and environment on our projects. We therefore keep a continuous focus on safety, working environment and environmentally sound behavior and on contributing positively to our surroundings. We ensure continued focus and awareness on this by having integrated policies and action points integrated in our Leadership System ISO9001. In the management statement from last year, we sadly had to report one incident, which led to one of our colleagues having an injury to his foot. We are back on track and can fortunately report 0 incidents again this year.

Throughout the year, we have worked for a positive and developing working environment, which focuses on the individual employee, and on collaboration between employees and across departments. We have supported initiatives to improve employee health and safety and are striving to continuously improve work-life balance, by ensuring the right people and the right number of people. The management supports and initiates several health supporting activities ranging from physical activity breaks to healthy food. The management keeps a close eye on the voluntary employee turnover and concludes that it continues to stay at a low level.

As a shipping company, we have a responsibility to contribute to the development of future shipping employees and leaders. We excel in taking a significant number of own trainees onboard – and preferably keep them onboard - and support the education of trainees and of our employees in general. In 2021 alone we have employed 2 shipping trainees.

We consider diversity a strength that helps us gain access to the best talents and develops our business and organization in a positive direction.

In Baltic Shipping Company we fully support and live by the UN Code of Conduct, and our human rights policies are consolidated from this and our employee handbook. We support integrity and ethics in all aspects of the company's activities, and we have a zero tolerance towards corruption. It is an integrated part of our supplier and customer assessment that this part of the code of conduct are adhered to by all. To ensure the adherence by all parties the management is in constant and close dialogue with all involved parties and can again on this basis conclude that no violation of human rights or attempts on corruption have happened in 2021.

Management's Review

Subsequent events

The Russian military invaded Ukraine in February 2022. Management considers the implications of the invasion a non-adjusting subsequent event.

Management pays close attention to the impact of the invasion in Ukraine and the implications this may have on the Group's operations. Management is constantly assessing sanctions and market developments. As part of this, Management is in close dialogue with the Group's business partners and other stakeholders about the current situation.

Despite the crisis Management do not foresee any material implications on their operations in 2022. However, this assessment is attached with considerable uncertainty.

No other events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

Notes to the Financial Statements

10 Accounting Policies

The Annual Report of Baltic Shipping Company A/S for 2021 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B as well as selected rules applying to reporting class C.

The accounting policies applied remain unchanged from last year.

The Financial Statements for 2021 are presented in DKK.

Consolidated financial statements

With reference to section 112 of the Danish Financial Statements Act and to the consolidated financial statements of Baltic Holding Hundested ApS, the Company has not prepared consolidated financial statements.

Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Leases

Leases in terms of which the Company assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or an alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Company.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

Notes to the Financial Statements

10 Accounting Policies (continued)

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Income Statement

Revenue

Revenue recognised relates purely to commercial ship management, agency and stevedorring activities. Revenue is recognised when the risks and rewards relating to the service provided have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Company.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

Other external expenses

Other external expenses comprise indirect costs and expenses for premises, sales and distribution as well as office expenses, etc.

Gross profit/loss

With reference to section 32 of the Danish Financial Statements Act, gross profit/loss is calculated as a summary of revenue, other operating income, expenses for services related to chartering, agency and stevedorring and other external expenses.

Notes to the Financial Statements

10 Accounting Policies (continued)

Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of property, plant and equipment.

Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Company, including gains and losses on the sale of property, plant and equipment.

Income from investments in subsidiaries

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with wholly owned Danish subsidiaries. The tax effect of the joint taxation is allocated to Danish enterprises in proportion to their taxable incomes.

Balance Sheet

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the

Notes to the Financial Statements

10 Accounting Policies (continued)

expected useful lives of the assets, which are:

Other fixtures and fittings, tools and equipment	3-10 years
Leasehold improvements	5 years

The fixed assets' residual values are determined at nil.

Depreciation period and residual value are reassessed annually.

Impairment of fixed assets

The carrying amounts of property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries

Investments in subsidiaries are recognised and measured under the equity method.

The item "Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries.

Subsidiaries with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

Other fixed asset investments

Other fixed asset investments consist of deposits.

Inventories

Inventories consist of bunker fuel and are measured at the lower of cost under the FIFO method and net realisable value.

Notes to the Financial Statements

10 Accounting Policies (continued)

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Equity

Dividend

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

Financial debts

Loans are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Notes to the Financial Statements

10 Accounting Policies (continued)

Other debts are measured at amortised cost, substantially corresponding to nominal value.

Other payables include working accounts with ship owners.

Deferred income

Deferred income comprises payments received in respect of income in subsequent years.
